**Practical Wisdom** Malcolm L. Warford, 2004 Contemporary theological education is facing profound changes. Fundamental shifts in both church and society have established a volatile context for theological teaching and learning. Seminaries are struggling with the growing diversity of their students, faculties, and institutional commitments. This book addresses these issues both contextually and historically, engages the nature of theological teaching and learning, and offers educational practices that strengthen the vocation of teaching and enhance the school as a place of conversation.

**Intelligent Information Systems and Knowledge Management for Energy: Applications for Decision Support, Usage, and Environmental Protection** Metaxiotis, Kostas, 2009-08-31 This book analyzes the need for a holistic approach for the construction and engineering of cities and societies. Provided by publisher.

**Protein Kinase C Protocols** Alexandra C. Newton, 2008-02-03 Since the discovery that protein kinase C (PKC) transduces the abundance of signals that result in phospholipid hydrolysis, this enzyme has been at the forefront of research in signal transduction. Protein Kinase C Protocols covers fundamental methods for studying the structure, function, regulation, subcellular localization, and macromolecular interactions of PKC. Protein Kinase C Protocols is divided into 11 sections representing the major aspects of PKC regulation and function. Part I contains an introduction and a historical perspective on the discovery of PKC by Drs. Yasutomi Nishizuka and Ushio Kikkawa. Part II describes methods to purify PKC. Part III describes the standard methods for measuring PKC activity, its enzymatic activity, and its stimulus-dependent translocation from the cytosol to the membrane. Part IV describes methods for measuring the membrane interaction of PKC in vivo and in vitro. Part V provides methodologies and techniques for measuring the phosphorylation state of PKC, including a protocol for measuring the activity of PKC's upstream kinase, PDK1. Novel methods for identifying substrates are described in Part VI. Part VII presents protocols for expressing and analyzing the membrane-targeting domains of PKC. Part VIII provides a comprehensive compilation of methods used to identify binding partners for PKC. Part IX describes pharmacological probes used to study PKC. The book ends with a presentation of genetic approaches to study PKC. Part X and a discussion of approaches used to study PKC in disease. Part XI.

**Social Studies Education in East Asian Contexts** Kerry J. Kennedy, 2020-07-28 The book explores the state of social studies education within selected East Asian societies and provides some insights into distinctive classroom practices. In an increasingly volatile and unpredictable world, the education of young people who both understand the contexts in which they are growing up and see the need for engaging with them is a top priority. This task falls to social studies education, which carries the responsibility for inducting young people into their social world and helping them to see the role they can play within it. This is particularly important in East Asia, where strong economic growth, long-held cultural values, and diverse political systems create an environment that challenges young people on multiple fronts. This book, with its

team of regional authors shows how different societies in the region are dealing with these challenges and what can be expected from future citizens The book will appeal to policy makers researchers and teachers interested in the current state of social studies education in East Asian societies
