### 5.1 Common Multiples and Common Factors

#### Idli-Vada Game

Children sit in a circle and play a game of numbers.

One of the children starts by saying '1'. The second player says '2', and so on. But when it is the turn of 3, 6, 9, ... (multiples of 3), the player should say 'Idli' instead of the number. When it is the turn of 5, 10, ... (multiples of 5), the player should say 'vada' instead of the number. When a number is both a multiple of 3 and a multiple of 5, the player should say 'Idli-vada'. If a player makes a mistake, they are out.

School District Instructional Computer-use Evaluation Manual Chris Morton, Don Beverly, 1989      **Math Mysteries, Grade 6**, 2012-10-22 The Math Mysteries series was designed to encourage students to think like math detectives using clues to solve problems. These four different types of activities are found in each book: story-based mysteries, activities that discover the mysteries found in mathematics, rhyming riddles, and crack the code problems. All activities are identified in the table of contents with the NCTM standards. Activities integrate problem solving with numbers and operations and can be used in a variety of ways. The forty engaging activities can be assigned individually, in pairs, as small group assignments, or can be solved together by the whole class. Students are also challenged to create their own math mysteries for others to solve. As students begin to think and write mathematically, they will enjoy the challenge found in each activity. *Everyday Mathematics Teacher Lesson Guide Volume 1 Grade 5* University of Chicago.
