

Princeton 112 Plus Owner's Manual

The Fender **PRINCETON 112 Plus** amplifier presents the player with the best value of any channel switching amplifier in its price class. Besides the basic complement of **VOLUME**, **TREBLE** and **BASS** controls in the **NORMAL** channel, the **DRIVE** channel offers *completely independent* tone controls including Fender's exclusive "CONTOUR" control. This control provides midrange "tone shaping" that will continuously vary your sound from smooth and bluesy to a punchy honk, or all the way to 10 for the ultimate heavy metal overdrive! The **DRIVE** channel also incorporates Fender's innovative 11 smooth clipping" circuit. This circuit concept is designed to simulate the way tubes clip and produce the overdrive distortion sound so popular with musicians today.

In addition to convenient features like *All Front Panel Mounted Controls and Jacks*, the **PRINCETON 112 Plus** offers exclusive

exclusive multiplexed footswitch circuitry for selecting the **DRIVE** channel and for activating the lush internal reverb circuitry. Remote switching is accomplished by connecting the optional two-button footswitch to the **FOOTSWITCH** jack with a standard mono guitar or speaker cable. Also included are **PREAMP OUTPUT** and **POWER AMP INPUT** jacks that allow for a variety of external effects connection schemes and amplifier slaving configurations. The **HEADPHONES** jack automatically mutes the speaker in addition to driving Stereo or Mono headphones.

The built in quality of a Fender amplifier is the result of over four decades of dedication in the combined skills of research and development by our engineers and musicians.

That is why we proudly say ... **FENDER. The Sound That Creates Legends.**

Standard Strat / General Purpose / Any Pick- Up Combination

Aggression / Any Guitar / Bridge Pickup

Strat Blues / Neck or Middle Pickup - Chunk Rhythm / Bridge Pickup
