J. Smit, 2007 Book CD To improve on an award winning book poses a major challenge to its authors. The authors of this book took the challenge head on by conducting a major research study to determine what exactly the outcomes are that managers at different levels must deliver in contemporary organisations in South Africa and the rest of Africa The findings of this study which dealt with current and near future management issues as well as classical and contemporary thinking about management were used as the

blueprint for the updating of this book After placing management in context the authors deal with the knowledge skills and dispositions required of managers to perform the management functions of planning organising leading and controlling in a volatile business world Examples of how the functions are applied in practice are cited throughout the book These examples refer mainly to South African organisations and situations that managers in South Africa and Africa have to deal with to create and sustain a competitive advantage for their organisations. The book endeavours to break down the silo effect of seeing the management functions as separate activities This is done by continuously placing the management function at hand in a bigger context This enables learners of management to assess the implications of management decisions on different people processes systems and so on that make up the organisation **Community-based Conservation in an Entitlement Perspective** James Gichiah Njogu, 2004 Marine & Freshwater Research ,1995 Books in Series ,1985 Vols for 1980 issued in three parts Series Authors and Titles Forthcoming Books Rose Arny, 2003 The Video Source The British National Bibliography Arthur James Wells, 2009 Book David J.
