The Principle of Proportionality, Solvency II and Captives Marta Ostrowska, 2025-03-05 This book offers an in depth analysis of the principle of proportionality in the EU insurance regulatory regime It takes a critical look at how proportionality has been implemented in Solvency II and tests its effectiveness on captive re insurance undertakings Given their unique business model captives are considered the primary beneficiary of proportionality and therefore offer the perfect litmus test for the principle s effectiveness In a world characterized by overregulation and increasingly complex financial markets governments and policymakers face the challenge of regulating markets without hindering their growth As one size fits all approaches have long since been recognized as detrimental the EU is seeking to develop a regulatory technique which allows more individual regulatory treatment while ensuring a level playing field The first revolutionary step towards this goal was taken in Solvency II Directive 2009 138 EC which introduced a principle of proportionality to the EU insurance market The principle is a unique tool which makes it possible to adjust the requirements of the Solvency II framework to the nature scale and complexity of each individual insurance undertaking s risk profile It is intended to help remove an unnecessary regulatory burden for insurance undertakings and to prevent the proliferation of regulations in general However the practical implementation of proportionality is not without its share of obstacles The principle s generic nature and the lack of guidance have caused a great deal of confusion regarding its practical application and prevented insurance undertakings from using its benefits to the fullest Consequently the principle of proportionality has been subject to revision within the first Solvency II review process The book will benefit captive owners captive managers regulators supervisors practitioners academics students and more generally all those involved with or interested in the insurance market **University of Illinois Bulletin** ,1915 Annual Circular of the Illinois Industrial University University of Illinois (Urbana-Champaign campus),1926 **The New European Private Law:Vol. 3:Essays on the Future of Private Law in Europe** Martijn Hesselink,2002-10-16 In The New European Private Law Martijn W Hesselink presents a revised and supplemented collection of essays written over the last five years on European private law He argues that the creation of a common private law in Europe is not merely a matter of rediscovering the old ius commune or of neutrally establishing the present common core which may be codified in a European Civil Code Rather it is a matter of making choices some of which may be highly controversial In this book he discusses some of the most important choices which will have to be made with regard to culture principles politics models rights concepts and structure in the new European private law *Bulletin ...
