Total Quality Marketing Allan Reddy, 1994-09-30 Having achieved production quality aggressive foreign firms are

cleverly shifting emphasis to total quality marketing which is a dynamic market driven concept that goes beyond the currently popular total quality management approach. It centers on customer satisfaction as a way to achieve solutions to business problems. It is a market driven idea that stresses customer satisfaction as crucial to the success of a business in a highly competitive modern business world. The concept is an enhanced version of the marketing mix, the familiar 4 P paradigm in marketing. Thus by incorporating quality into their product, price, promotion and distribution strategy, firms can regain market shares and can prevent further erosion of market shares to aggressive foreign competitors from Japan, Germany and the Newly Industrialized Countries (NICs). By not focusing on markets, firms risk losing their businesses to aggressive foreign firms. The book is targeted to business executives, scholars, researchers, policy makers of business and government, foreign firms and the general public. The book has eight chapters. The first chapter presents the problem of loss of market shares. Chapter two evaluates imports to identify major competitors and what they export to U.S. Chapter three focuses on the SWOT Analysis which evaluates the strengths, weaknesses, opportunities and threats of U.S. vs. foreign firms. Chapter four unravels the market share mystique. The following chapters introduce Total Quality Marketing, explain how Total Quality Marketing is currently carried out in some firms and show the integration of quality into marketing through company examples. The last chapter provides a concluding commentary by looking into the future. **Management** Heinz

Catalog of Books**, 1996 Human Relations Lowell H.

Lamberton, Leslie Minor-Evans, 2002.
