Alan R. How,2016-06-30 This book demonstrates that classical sociology is essential to cutting edge debates in the contemporary social sciences It has become fashionable to play down the importance of the classic text in sociology and critique the ideas of Weber Marx and Durkheim as ideologically outdated The author mounts a strong challenge to this view criticising such notions as de traditionalization structuration and postmodernism emphasizing instead the relevance of habit re traditionalization and social integration across time Arguing that sociology has eliminated the importance of the past history and tradition in favour of the transience of the present he revisits the Habermas Gadamer debate to argue that tradition is the ground of the classic and the classic something that must prove itself anew in subsequent situations He uses the work of Durkheim Simmel and Weber to illustrate this process Making a distinction between classic and canon which parallels that between agency and structure he allows the reader to appreciate the separate value of both This major contribution to the field is essential reading for scholars and students of sociology and social theory The Jane Austen MEGAPACK TM: All Her Classic Works

Wachs,Jon D. Schaff,2019-11-29 Age of Anxiety Meaning Identity and Politics in 21st Century Film and Literature analyzes literature and films that speak to our age of anxiety resulting from the decline of narratives that provided individuals with a meaningful human life The authors argue that the twentieth century sought to free individuals from the constraints of authoritative cultural traditions and institutions liberating the autonomous self Yet this has given rise to anxiety rather than liberation Instead of deriving one s sense of purpose from one s role and place within a community the consumer has been deceived into thinking that their identity can be purchased through the meaning represented by the conspicuous consumption of a brand The same phenomenon manifests itself in politics within recent populist revolts against globalist politics In addition the rapid pace of technological development is driving an unprecedented faith in the malleability of human beings raises doubts as to what it means to be a person Utilizing paradigms from the fields
