Within human society, it is customary to distinguish between the following spheres: economic, political, social, and spiritual. The political sphere is important in that it involves and determines the interactions of different political powers. This understanding lies at the foundation of any political analysis of public life. Politics, as a specific sector within human society, is as old as it is modern. Many famous statesmen and scientists are credited as the authors of laws and political systems. In today's global community, facing growing pressures of political extremism and radicalism, knowledge of basic political science principles should help students develop a democratic ethos and foster qualities such as political tolerance, compromise, and cooperation while learning to express and defend their interests in a civilized manner. The foundation of political science lies in the accumulated knowledge of mankind. Pride and Prejudice Jane Austen, 2015-01-21 It is a truth universally acknowledged that a single man in possession of a good fortune must be in want of a wife. However little known the feelings or views of such a man may be on his first entering a neighbourhood, this truth is so well fixed in the minds of the surrounding families that he is considered the rightful property of some one or other of their daughters. My dear Mr Bennet, said his lady to him one day, have you heard that Netherfield Park is let at last? Mr Bennet replied that he had not. But it is returned, she said, for Mrs Long has just been here and she told me all about it. Mr Bennet made no answer. Do you not want to know who has taken it? cried his wife impatiently.
