Today is a turning point in each of our lives. We have spent the past years wandering the halls of this great school and now we are ready to go on.

We have learned, laughed, loved, gotten into trouble, and most of all matured together. But today doesn't just concern reminiscing about the past; it's also about looking forward into our future.

Life is a series of passageways, and we are leaving one and moving on to the next. When we reach that daunting place next year that has been our destination for three years now, we will start over.

We will meet new people, make new friends, and learn new things. We will grow older, more responsible, and independent. Then, the cycle begins again in college, and after that, we are left to traverse the unmapped expanse that is our future.

Hereafter our lives will hold many surprises for us, but I'm sure that we will approach challenges with the same boldness and equanimity with which we tackle problems currently. The unknown of our future may seem frightening now, looming over us like a dark thundercloud, but we might find that it is just a light, spring rain that brings the tidings of a rainbow.

As I look over the many faces I behold today, perceptions of individuals are washed away. I no longer see people as they were; I see them as they will be. So, rather than a young boy, failing all his classes, I see the next Einstein, making revolutionary discoveries. I know that this amphitheatre holds the next decade's great business leaders, doctors, politicians, scientists, and stars, and that all of these graduates will contribute to the fabric of the future in some way.

So when looking at the bright horizon that is my future, I am happy. For although my life will contain sadness and heartbreak, it will also hold joy, love, and success. And I know my classmates' will too. So don't look back, and regret, my friends, look forward, and smile.

*Age of Brooding* Robin P. Blessed, 2014-01-08 Age of Brooding for the author was a period of questioning about his new found Christian faith in the Lord Jesus Christ not as in a first person physical encounter yet as good as one In a sense brooding is maturing something with care where maturing is much like dwelling solicitously over a matter a subject under consideration and in the author's case his engagement in the Christian faith when he followed Jesus Christ With that conviction and the follow on commitment he took upon himself the unknown relationship challenges from all those about him his parents less of his siblings his relatives and friends and in the possible prodigal waste of time in such a sudden and inconceivable endeavour The door of faith is a narrow one through which it lets not self righteousness worldly glories and dignities We stay outside until we strip ourselves of adorning crowns and royal vesture and stand clothed only in the poor skin of penitence We must make ourselves tiny to get in We must curl up and creep on our knees to constrain ourselves to its lowly frame we must leave everything outside so restrictively narrow is it Normal Instructor and Primary Plans ,1914

**Mark Twain and Medicine** K. Patrick Ober, 2003 Mark Twain has always been America's spokesman and his comments on a wide range of topics continue to be accurate valid and frequently amusing His opinions on the medical field are no exception While Twain's works including his popular novels about Tom Sawyer and Huckleberry Finn are rich in medical imagery and medical themes derived from his personal experiences his interactions with the medical profession and his comments about health illness and physicians have largely been overlooked In *Mark Twain and Medicine* K Patrick Ober remedies this omission The nineteenth century was a critical time in the development of American medicine with much competition among the different systems of health care both traditional and alternative Not surprisingly Mark Twain was right in the middle of it all He experimented with many of the alternative care systems that were available in his day in part because of his frustration with traditional medicine and in part because he hoped to find the perfect system that would bring health to his family Twain's commentary provides a unique perspective on American medicine and the revolution in medical systems that he experienced firsthand Ober explores Twain's personal perspective in this area as he expressed it in fiction speeches and letters As a medical educator Ober explains in sufficient detail and with clarity all medical and scientific terms making this volume accessible to the general reader Ober demonstrates that many of Twain's observations are still relevant to today's health care issues including the use of alternative or complementary medicine in dealing with illness the utility of placebo therapies and the role of hope in the healing process Twain's evaluation of the medical practices of his era provides a fresh humanistic and personalized view of the dramatic changes that occurred in medicine through the nineteenth century and into the first decade of the twentieth Twain scholars general readers and medical professionals will all find this unique look at his work appealing **Religion in the Public Schools** Michael D. Waggoner, 2013-04-10 Since September 11 2001 the profile of religion's role in our global society has increased significantly Religion has long been a force in people's lives as numerous studies and polls show yet we continue to struggle with understanding differing religious traditions and what they mean for our common life There are few places where Americans can meet together to learn about each other and to share in the common construction of our futures One such place for many is public education The purpose of this book is to illustrate the complexity of the social cultural and legal milieu of schooling in the United States in which the improvement of religious

literacy and understanding must take place Public education is the new commons We must negotiate this commons in two meanings of that term first we must come to mutual understandings and agreement about how to proceed toward a common horizon of a religiously plural America second we must work our way through the obstacles in these settings in practical ways to achieve results that work

Changing Identities of the Southeast Asian Chinese Since World War II Jennifer Cushman, Gungwu Wang, 1988-11-01 In June 1985 a symposium Changing Identities of the Southeast Asian Chinese since World War II was held at the Australian National University in Canberra This volume includes many of the papers from that symposium presented by ANU scholars and those from universities elsewhere in Australia North America and Southeast Asia Participants looked at the current thinking about the parameters of identity and shared their own research into the complex issues that overlapping categories of identity raise Identity was chosen as the focus of the symposium because perceptions of self whether by others or by the individual Chinese concerned appear to lie at the heart of the present day Chinese experience in Southeast Asia It is also evident that identity wears many guises and that we cannot talk about a single Chinese identity when identity can be determined by the different political social economic or religious circumstances an individual faces at any given time One of the distinctive characteristics of all the essays in this volume is that they are written from an historical perspective While the papers focus on how recent developments in Southeast Asian society have shaped Chinese identity they also discuss those changes in terms of the historical matrix from which they developed Because many of the essays in this volume combine an historical overview with more recent statistical data it should serve as a useful companion to the increasingly popular case studies in which much of the writing about the Chinese in Southeast Asia is now cast

over their personal and public identities while making a plea to a wider audience The second part looks at residential school narratives and shows how the authors construct identities for themselves in ways that defy the institution s control The interactions between these two bodies of writing residential school accounts and prison narratives invite recognition of the ways that guilt is colonially constructed and how these authors use their writing to distance themselves from that guilt Offering new ways of reading Native writing From the Iron House is a pioneering study of prison literature in Canada and situates its readings within international criticism of prison writing Contributing to genre studies and theoretical understandings of life writing and covering a variety of social topics this work will be relevant to readers interested in indigenous studies Canadian cultural studies postcolonial studies auto biography studies law and public policy      *Clinical Psychology in Africa* Karl Peltzer,P.
