Governance and Policy in Sport Organizations Mary A. Hums, Joanne C. MacLean, 2017-05-11 The third edition of

Governance and Policy in Sport Organizations introduces readers to the power and politics of sport organizations. It explores the managerial activities essential to governance and policy development and it looks at the structure and function of organizations like those with which readers will interact in the workplace. It also demonstrates where the power lies in an organization or industry segment and how individual sport organizations fit in to the greater industry. Current policy issues and the ethical questions they raise are also addressed. Real world case studies demonstrate the types of dilemmas that sport managers face every day. In addition, professional administrators from a wide variety of sport organizations contribute their perspectives, giving readers a glimpse into the real concerns of sport professionals and the impact of governance and policy on their jobs. The book's practical foundations, readability, and logical organization all help readers to understand the big picture of the sport industry and their place in it as future sport managers. New to the third edition is a chapter on individual professional sport which explores how this industry segment differs from professional sport leagues. In addition, contributions from Thierry Zintz from the Universite catholique de Louvain offer insights into European sport organizations.

Crisis and Disaster Management for Sport Richard Shipway, Lee Miles, Richard Gordon, 2020-11-11. Crisis and Disaster Management for Sport is the first book to introduce key concepts and best practice in crisis and disaster management in sport and international sports events. The book draws from multiple disciplines to provide insight into the issues and challenges involved in planning for and managing crises and disasters in the context of sport. With an initial focus on sports event and venue resilience, the book also explores social community and individual resilience within sport and examines concepts and issues such as fandom, risk perception, crowd control and management, crisis communication and reputational risk, and the growing challenges posed by climate change. The book includes real world case studies as well as disaster management related simulation and scenario building exercises and looks ahead to what might be the most significant threats in future to the safe and sustainable management of sport. With the devastating impacts of COVID 19 illustrating the central importance of resilience and proper preparation for crises and disasters, this book is an essential read for all researchers, students, practitioners, and policy makers working in sport, tourism, entertainment, leisure, and critical event studies.
