General Comments

There were 17 713 candidates. The mean mark was 13.20 and the standard deviation was 5.17.

When compared to the target accessibility of 25–80%, one item proved to be slightly more difficult and three items proved to be more difficult than anticipated. No items proved to be easier than expected.

All the items were within the scope of the syllabus.

The statistics for many of the items indicate that there was a considerable amount of guesswork on the part of many candidates. It is important to remember that a thorough knowledge of all topics on the syllabus is required in order to gain high marks on this paper.

Comments on specific items

Item 3

60% understood the double entry required to record the transaction. A lack of understanding of the different ledgers resulted in the key being selected by only 39%.

Item 5

This should have been a relatively straightforward item. It was expected that candidates would know that only cash discount is recorded in the cash book and that this is calculated on the price of the goods after the deduction of trade discount.

Maria G. Dove, Andrea Honigsfeld, 2017-09-27 Dove and Honigsfeld's new book arrives at the perfect time as an increasing number of schools move to a collaborative instructional model and are searching for guidance. The authors not only tell us how to effectively collaborate and co-teach to benefit English learners; they actually show us what each component of the collaborative instructional cycle looks and feels like, complemented by innovative video and web content. DIANE STAHR FENNER, Coauthor of *Unlocking ELs' Potential* and President of SupportEd. Because teacher collaboration isn't an option, it's a MUST. The proof is borne out by any assessment: our non-native speakers learn faster and achieve more when general ed teachers and EL specialists co-plan and co-deliver instruction in the very same classroom. That's why you'll want to put *Co-Teaching for English Learners* at the top of your reading list. Step by step, EL authorities Maria Dove and Andrea Honigsfeld walk you through the entire collaborative instruction cycle along with seven potential classroom configurations from which to choose. Whether you're new to co-teaching or just see room for improvement in your practice, this practical handbook delivers every technique and tool you need to make the most of your collaboration, including video footage of co-teaching in action. Inside, you'll find in-depth profiles of the seven models with detailed descriptions and analyses, a review of advantages and challenges of each model's implementation, clear explanations of each teacher's role along with self-assessment tools, tried and true strategies for the entire instructional cycle: co-planning, co-instruction, co-assessment, and reflection. Real-life accounts from co-teaching veterans. Long gone are the days when our ELs are taught in isolation, and rightfully so. Read *Co-Teaching for English Learners*, implement its strategies, and soon enough, you too can set up a learning environment in which all students thrive.

[Handbook of Commercial Policy](#), 2016-11-02 *Handbook of Commercial Policy* explores three main topics that permeate the study of commercial policy. The first section presents a broad set of basic empirical facts regarding the pattern and evolution of commercial policy, with the second section investigating the crosscutting legal issues relating to the purpose and design of agreements. Final sections cover key issues of commercial policy in the modern global economy. Every chapter in the book provides coverage from the perspectives of multilateral and where appropriate preferential trade agreements. While most other volumes are policy-oriented, this comprehensive guide explores the ways that intellectual thinking and rigor organize research, further making frontier-level synthesis and current theoretical and empirical research accessible to all. Covers the research areas that are critical for understanding how the world of commercial policy has changed, especially over the last 20 years. Presents the way in which research on the topic has evolved. Scrutinizes the economic modeling of bargaining and legal issues. Useful for examining the theory and empirics of commercial policy.

[The Moral Psychology of Hope](#), Claudia Blöser, Titus Stahl, 2019-11-13 That we can hope is one of the capacities that define us as human beings. To hope means not just to have beliefs about what will happen, but to imagine the future as potentially fulfilling some of our most important wishes. It is therefore not surprising that hope has received attention by philosophers, psychologists, and by religious thinkers throughout the ages. The contributions in this volume, written by leading scholars in

the philosophy of hope gives a systematic overview over the philosophical history of hope about contemporary debates and about the role of hope in our collective life *Teaching Psychology* Douglas A. Bernstein, Sue Frantz, Stephen L.

Chew, 2019-11-08 This thoroughly revised third edition of *Teaching Psychology* synthesizes the latest pedagogical research on effective teaching and translates it into recommendations for classroom application It also takes into account the many changes in the teaching landscape that have taken place in recent years Covering key topics such as planning a course choosing teaching methods assimilating technology and the integration of teaching into the rest of your academic life this book also includes an abundance of supportive supplementary content to guide and inform new teachers This content will also benefit seasoned teachers who wish to reevaluate their current teaching practices and explore new teaching ideas and techniques Presenting a comprehensive and cutting edge teaching guide for psychology teachers this book is a vital resource for those who are training psychology instructors or undertaking a teaching psychology course It is also a useful text for more experienced faculty looking to update their current teaching practices *The TRIPS Regime of Patents and Test Data*

Nuno Pires de Carvalho, 2016-04-24 This preeminent work has proven the best practical commentary on the TRIPS agreement related to patents and test data This fifth edition in which the author has revised the whole text and updated various arguments continues to articulate with unmatched clarity the specific steps that a government or a company must take in a wide variety of possible contexts to ensure that its patent related obligations under TRIPS are met The presentation is arranged in an article by article format following the TRIPS Agreement itself as it relates to patents and test data In this way the author's incisive analysis covers every issue likely to arise in today's patent and test data administrative and legal practice including the following significance of the recent entry into force of Article 31bis developments in enforcement of patent rights in the context of competition law the potential effects of Brexit and the new protectionist inclination of US trade policy expanded commentary on trade secrets and test data under Article 39 alternate ways to transpose TRIPS obligations into national law and standards of intellectual property protection as a bargaining chip in international trade The TRIPS Agreement has a direct impact on the daily activities of corporations governments and consumers This book contains a very practical explanation of the meaning of the patent related TRIPS provisions how they should be reflected in national law and how courts are expected to enforce them For these reasons and more the Fifth Edition is a crucially important resource for patent and public health lawyers seeking compliance as well as for government officials charged with the implementation of TRIPS obligations **Parental Liability in EU Competition Law** Peter Whelan, 2023-08-10 In enforcing EU competition

law the Commission employs a unique doctrine of parental antitrust liability it imposes fines on the parent company of an infringing subsidiary in cases where the parent exercises decisive influence over the subsidiary's commercial policy Critics of this contentious aspect of EU competition law believe that the doctrine is unfair ineffective obscure disproportionate contrary to due process and based upon a dubious if not extremely flimsy justificatory foundation Such criticism raises serious and

unanswered questions about the legitimacy of the Commission's efforts to enforce competition law

Parental Liability in EU Competition Law A Legitimacy Focused Approach is the first monograph to be dedicated to this controversial topic. Written by Professor Peter Whelan, the book contends that although the general concept of parental liability can be justified in principle, the current EU level doctrine of parental antitrust liability in fact suffers from a distinct and problematic lack of legitimacy. More specifically, the said doctrine displays significant deficiencies with respect to effectiveness, fairness, and legality. Given this undesirable state of affairs, *Parental Liability in EU Competition Law* offers a fully rationalised, reformulated approach to parental antitrust liability for EU competition law violations that is built around the notion of parental fault. That approach provides a solid normative account of how to impose parental antitrust liability in a manner that is theoretically robust, effective in practice, fair in substance, and legally sound.

Asian Data Privacy Laws Graham Greenleaf, 2014-10-16 The first work to examine data privacy laws across Asia covering all 26 countries and separate jurisdictions and with in depth analysis of the 14 which have specialised data privacy laws. Professor Greenleaf demonstrates the increasing world wide significance of data privacy and the international context of the development of national data privacy laws as well as assessing the laws, their powers, and their enforcement against international standards. The book also contains a web link to an update to mid 2017.

After Kant Michael Sonenscher, 2023-07-11 Tracing the origins of modern political thought through three sets of arguments over history, morality, and freedom. In this wide ranging work, Michael Sonenscher traces the origins of modern political thought and ideologies to a question raised by Immanuel Kant about what is involved in comparing individual human lives to the whole of human history. How can we compare them or understand the results of the comparison? Kant's question injected a new, future oriented dimension into existing discussions of prevailing norms, challenging their orientation toward the past. This reversal made Kant's question a bridge between three successive sets of arguments between the supporters of the ancients and moderns, the classics and romantics, and the Romans and the Germans. Sonenscher argues that the genealogy of modern

political ideologies from liberalism to nationalism to communism can be connected to the resulting discussions of time history and values mainly in France but also in Germany Switzerland and Britain in the period straddling the French and Industrial revolutions What is the genuinely human content of human history Everything begins somewhere democracy with the Greeks or the idea of a res publica with the Romans but these local arrangements have become vectors of values that are apparently universal The intellectual upheaval that Sonenscher describes involved a struggle to close the gap highlighted by Kant between individual lives and human history After Kant is an examination of that struggle s enduring impact on the history and the historiography of political thought

Reforming Age Discrimination Law Alysia Blackham, 2022-05-30 Age is a critical issue for labour market policy Both younger and older workers experience significant challenges at work Despite the introduction of age discrimination laws ageism remains prevalent Reforming Age Discrimination Law offers a roadmap for the future development of age discrimination law in common law countries to better address workplace ageism Drawing on theoretical doctrinal and empirical legal scholarship and comparative perspectives from the United Kingdom Australia and Canada the book provides a socio legal critique of existing age discrimination laws and their enforcement and proposes concrete suggestions for legal reform and change Building on legal and interdisciplinary insights it examines the challenges and limitations of existing legal frameworks and the individual enforcement model for addressing age discrimination in employment It also maps the stages of claiming negotiation or alternative dispute resolution and hearing and judgment using mixed method case studies of the enforcement of age discrimination law in the United Kingdom and Australia This volume puts forward a four fold model of reform which aims to improve the individual enforcement model strengthen positive equality duties bolster the roles of statutory equality agencies and enhance collective enforcement It goes on to critically consider how these options might address the limits of existing laws and the practical measures necessary to ensure their success and to move beyond the individual enforcement of age discrimination law
