Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1973 *Distressed US Industries in the Era of Globalization* Lall Ramrattan,2017-11-30 This book presents analyses of several distressed industries in the United States including the steel footwear textile and apparel paper and publishing and automobile industries In particular it focuses on the influence of the new era of globalization on these industries as the authors argue that the transition to their current distressed states was triggered by the structural changes that resulted from globalization While the inevitability of the negative impact of globalization may lead some to neglect research of distressed industries these industries continue to survive and productively contribute to the economic base of the United States Their stories are about the changing structure conduct and performance of the industrial United States **The Chicago School of Political Economy** Warren

Samuels,2021-12-16 The Chicago School of Economics is arguably the most successful and influential since World War II This volume provides an interpretation of the Chicago school through constructive critique of its doctrines It is an inquiry into the nature role and significance of the school and its doctrines within both the economics profession and the larger world of ideas and action This volume offers a deeper understanding of the school of its strengths and weaknesses and of the tasks of any body of thought that hopes to comprise an alternative Comparisons in Economic Thought Stavros A.

Drakopoulos,2016-05-26 The idea of comparing rewards with others has a long and persistent presence in the social sciences and can be found in many psychological social and managerial theories In economics this idea can be traced back through the works of a substantial number of eminent thinkers from Genovesi and Hume to Smith Ricardo Marx and Mill through to Veblen Pigou and Keynes In the last two decades the notion of social comparisons has started to appear more frequently in economic literature especially in the subfield of happiness research There are also signs that the notion has resurfaced in some strands of literature such as positional concerns social identity models and social capital theory Comparisons in Economic Thought offers a uniquely comprehensive account of how social comparisons have featured in the history of economic thought This book provides an assessment as to why social comparisons have been dismissed by mainstream economists and considers their current and future usefulness This volume is suitable for those who are interested and study history of economic thought economic methodology and History of Consumer Theory as well as Rational Choice Theory
