**The Nature of Mathematical Thinking** Robert J. Sternberg,Talia Ben-Zeev,2012-10-12 Why do some children seem to learn mathematics easily and others slave away at it learning it only with great effort and apparent pain Why are some people good at algebra but terrible at geometry How can people who successfully run a business as adults have been failures at math in school How come some professional mathematicians suffer terribly when trying to balance a checkbook And why do school children in the United States perform so dismally in international comparisons These are the kinds of real questions the editors set out to answer or at least address in editing this book on mathematical thinking Their goal was to seek a diversity of contributors representing multiple viewpoints whose expertise might converge on the answers to these and other pressing and interesting questions regarding this subject The chapter authors were asked to focus on their own approach to mathematical thinking but also to address a common core of issues such as the nature of mathematical thinking how it is similar to and different from other kinds of thinking what makes some people or some groups better than others in this subject area and how mathematical thinking can be assessed and taught Their work is directed to a diverse audience psychologists interested in the nature of mathematical thinking and abilities computer scientists who want to simulate mathematical thinking educators involved in teaching and testing mathematical thinking philosophers who need to understand the qualitative aspects of logical thinking anthropologists and others interested in how and why mathematical thinking seems to differ in quality across cultures and laypeople and others who have to think mathematically and want to understand how they are going to accomplish that feat

**Genetics and the Electroencephalogram** Friedrich Vogel,1999-08-18 Preface This book describes problems and results of research in the gap between two fields Human genetics and clinical neurophysiology Whenever I talked about my research on the genetics of the EEG the answer of human geneticists was Very interesting but I do not understand anything about the EEG On the other hand EEG specialists usually remark Very interesting but I do not understand anything about human genetics This is why I wrote this book It tries to summarize results my own and from some others and to point to problems In the from researc light of the recent progress especially in human molecular genetics this field of research promises deep insights into biological mechanisms of brain function as well as genetic variation involved in mental performance and personality of humans However the logistic problems of such studies are not easy to overcome It is necessary to study carefully ascertained population samples either of normal persons or of persons selected for phenotypic characteristics that are not easy to diagnose Moreover EEG diagnosis and classification must be very specific and is not trivial at all All these problems require careful preparations at various levels long lasting efforts and patience Of this I am sure however The results would justify the efforts I am too old to plan such a program myself moreover as an emeritus professor I do not have the means for such studies *Paper Technology* ,1995 **Psycholinguistic Implications for**

**Linguistic Relativity** Rumjahn Hoosain,2013-02-01 Rather than offering variations in world view as evidence for linguistic relativity this book views language related differences in terms of the facility with which information is processed Distinctive perceptual memory and neurolinguistic aspects of the Chinese language are discussed as is the cognitive style of the Chinese people Chinese orthography and other features of morphology and syntax are examined in relation to both bottom up and top down cognitive processes While providing an extensive review of the experimental literature published in English on the Chinese language this volume also offers a significant sample of the literature originally published in Chinese
