**University Access and Success** Merridy Wilson-Strydom,2015-02-11 The challenge of widening access and participation in higher education in a manner that ensures students are successful in their studies is a major issue globally and a significant research focus within higher education studies and higher education policy Similarly the challenge of under preparedness of students entering higher education has become increasingly pertinent as universities in both developed and developing countries struggle to improve their throughput rates in a context in which schooling no longer seems to provide sufficient preparation for entering university In this book Merridy Wilson Strydom applies the capabilities approach to better understand university access and participation and draws on a rich case study from South Africa to critically and innovatively explore the complex and contradictory terrain of access with success The book integrates quantitative and qualitative research with theory and practical application to provide a new framework for considering and improving the transition from school to university University Access and Success will appeal to academics and researchers in the field of higher education internationally The book also contributes to the growing body of international and comparative scholarship on the capabilities approach in higher education and will therefore be of value to higher education practitioners such as those working in the promotion of teaching and learning higher education quality assurance institutional research and student affairs     **Chinese Science Education in the 21st Century: Policy, Practice, and Research** Ling L. Liang,Xiufeng Liu,Gavin W. Fulmer,2016-08-16 This book provides an overview of science education policies research and practices in mainland China with specific examples of the most recent developments in these areas It presents an insiders report on the status of Chinese science education written primarily by native speakers with first hand experiences inside the country In addition the book features multiple sectional commentaries by experts in the field that further connect these stories to the existing science education literature outside of China This book informs the international community about the current status of Chinese science education reforms It helps readers understand one of the largest science education systems in the world which includes according to the Programme for International Student Assessment the best performing economy in the world in science math and reading Shanghai China Readers gain insight into how science education in the rest of China compares to that in Shanghai the ways Chinese science educators teachers and students achieve what has been accomplished what Chinese students and teachers actually do inside their classrooms what educational policies have been helpful in promoting student learning what lessons can be shared within the international science education community and much more This book appeals to science education researchers comparative education researchers science educators graduate students state science education leaders and officers in the international communities It also helps Chinese students and faculty of science

education discover effective ways to share their science education stories with the rest of the world
