Shepherd, David Horn, 2012-03-08 See Sound, Image, and National Imaginary in the Construction of Latin/o American Identities Héctor Fernández L'Hoeste, Pablo Vila, 2017-12-26 *Sound Image and National Imaginary in the Construction of Latin o American Identities* addresses a gap in the many narratives discussing the cultural histories of Latin American nations particularly in terms of the birth configuration and perpetuation of national identities It argues that these processes were not as gradual or constrained as traditionally conceived The actual circumstances dictating the adoption of particular technologies for the representation of national ideas shifted and varied according to many factors including local circumstances political singularities economic disparities and highly individualized cultural transitions This book proposes a model of chronology that is valid not only for nations that underwent strong processes of nationalism during the early or mid twentieth century but also for those that experienced highly idiosyncratic cultural economic and political development into the early twenty first century

Sounding Latin Music, Hearing the Americas Jairo Moreno, 2023-05-16 How is Latin American music heard by whom and why Many in the United States believe Latin American musicians make Latin music which carries with it a whole host of assumptions definitions and contradictions In their own countries these expatriate musicians might generate immense national pride or trigger suspicions of national betrayals The making sounding and hearing of Latin music brings into being the complex array of concepts that constitute Latin Americanism its fissures and paradoxes but also its universal aspirations Taking as its center musicians from or with declared roots in Latin America Jairo Moreno presents us with an innovative analysis of how and why music emerges as a necessary but insufficient shorthand for defining and understanding Latin American Latinx and American experiences of modernity This close look at the growth of music making by Latin American and Spanish speaking musicians in the United States at the turn of the twenty first century reveals diverging understandings of music s social and political possibilities for participation and belonging Through the

Salsa Consciente Andr s Espinoza Agurto,2021-12-01 This volume explores the significations and developments of the Salsa consciente movement a Latino musico poetic and political discourse that exploded in the 1970s but then dwindled in momentum into the early 1990s This movement is largely linked to the development of Nuyolatino popular music brought about in part by the mass Latino migration to New York City beginning in the 1950s and the subsequent social movements that were tied to the shifting political landscapes Defined by its lyrical content alongside specific sonic markers and political and social issues facing U S Latinos and Latin Americans Salsa consciente evokes the overarching cultural nationalist idea of Latinidad Latin ness Through the analysis of over 120 different Salsa songs from lyrical and musical perspectives that span a period of over sixty years the author makes the argument that the urban Latino identity expressed in Salsa consciente was

constructed largely from diasporic deterritorialized and at times imagined cultural memory and furthermore proposes that the Latino Latin American identity is in part based on African and Indigenous experience especially as it relates to Spanish colonialism A unique study on the intersection of Salsa and Latino and Latin American identity this volume will be especially interesting to scholars of ethnic studies and musicology alike

Improvising Sabor Sue Miller, 2021-02-01 Improvising Sabor Cuban Dance Music in New York begins in 1960s New York and examines in rich detail the playing styles and international influence of important figures in US Latin music Such innovators as Jos Fajardo Johnny Pacheco George Castro and Eddy Zervig n dazzled the Palladium ballroom and other Latin music venues in those crucible years Author Sue Miller focuses on the Cuban flute style in light of its transformations in the US after the 1959 revolution and within the vibrant context of 1960s New York While much about Latin jazz and salsa has been written this book focuses on the relatively unexplored New York charangas that were performing during the chachach and pachanga craze of the early sixties Indeed many accounts cut straight from the 1950s and the mambo to the bugal s development in the late 1960s with little mention of the chachach and pachanga s popularity in the mid twentieth century Improvising Sabor addresses not only this lost and ignored history but contends with issues of race class and identity while evaluating differences in style between players from prerevolution Cuban charangas and those of 1960s New York Through comprehensive explorations and transcriptions of numerous musical examples as well as interviews with and commentary from Latin musicians Improvising Sabor highlights a specific sabor that is rooted in both Cuban dance music forms and the rich performance culture of Latin New York The distinctive styles generated by these musicians sparked compelling points of departure and influence
