## **South African National Defence Force Application Forms 2016:**

**Turning and Turning** Judith February, 2018-08-01 South Africans often are deeply polarised in our perspectives of the present and the past. Our ways of seeing are fraught with division and we fail to understand the complexities when we do not see what lies beneath the surface. There is no denying that the Jacob Zuma presidency took a significant toll on South Africa, exacerbating tensions and exposing the deep fractures that already exist in our society along the lines of race, class, and even ethnicity. The Zuma years were marked by cases of corruption and state capture unprecedented in their brazenness and increased social protests, many of which were accompanied by violence, aggressive public discourse, lack of respect for reason, and an often disturbing resistance to meaningful engagement. Importantly, those years also placed enormous pressure on our democratic institutions, many of which still bear the scars and challenged the sovereignty of the Constitution itself. As an analyst and governance specialist at the Institute for Democracy in South Africa (IDASA) for twelve years, February has had a unique perch. *Turning and turning* is a snapshot of her IDASA years and the issues tackled, which included work on the arms deal and its corrosive impact on democratic institutions, IDASA's party funding campaign, which February helped lead, as well as work on accountability and transparency. Combining analytical insight with personal observations and experience, February highlights the complex process of building a strong democratic society and the difficulties of living in a constitutional democracy marked by soaring levels of inequality. There is a need to reflect on and learn from the country's democratic journey if citizens are to shape our democracy effectively and to fulfill the promise of the Constitution for all South Africans.

**Stopping the Spies** Jane Duncan, 2018-06-01 Is South Africa on its way to becoming a surveillance state, and will it need a whistleblower? In 2013, former National Security Agency (NSA) contractor Edward Snowden leaked secret documents revealing that state agencies like the NSA had spied on the communications of millions of innocent citizens. International outrage resulted, but the Snowden documents revealed only the tip of the surveillance iceberg. Apart from insisting on their rights to tap into communications, more and more states are placing citizens under surveillance, tracking their movements and transactions with public and private institutions. The state is becoming like a one-way mirror where it can see more of what its citizens do and say while citizens see less and less of what the state does, owing to high levels of secrecy around surveillance. In this book, Jane Duncan assesses the relevance of Snowden's revelations for South Africa. In doing so, she questions the extent to which South Africa is becoming a surveillance society governed by a surveillance state. Duncan challenges members of civil society to be concerned about and to act on the ever-expanding surveillance capacities of the South African state. Is surveillance used for the democratic purpose of making people safer, or is it being used for the repressive purpose of social control, especially of those considered to be politically threatening to ruling interests? She explores the forms of collective action needed to ensure that unaccountable surveillance does not take place and examines what does and does not work when it comes to developing organised responses.
