

Procurement & Subcontractors

At Prekaro, we pride ourselves on client management, delivering honesty, professionalism and integrity. This is only achievable by surrounding ourselves with the most reliable and dedicated subcontractors and consultants.

The project teams we assemble are highly experienced and share the same vision that we share for our clients, consistently delivering high quality building solutions and products.

We have worked with all our subcontractors for numerous years and have ongoing and successful working relationships with each and every one. As this is the case, the client will benefit significantly as they can be assured that only the industry leaders in quality and workmanship will be engaged on this project to ensure the end product exceeds all expectations.

Health & Safety

Prekaro holds the health and safety of all its employees and subcontractors as the highest priority. When completing any project, no matter how small the task, our priority is ensuring our workers return home safely to their families at the end of the day. This means our Health and Safety systems not only need to be current with Work Health and Safety (WHS) legislation but also maintained and monitored within Prekaro's own Safety System.

We achieve this by undertaking regular legislative reviews with respect to WHS compliance in order to monitor and update our own policies when required. These procedures are applicable throughout all of Prekaro's workplaces and the organisation's operations.

Prekaro always takes proactive steps to keep abreast of any legislative changes and complies with community expectations regarding Work Health and Safety.

With a Safety System second to none, similar to our Quality Assurance system, we manage each individual project with a series of:

- Procedures
- Forms
- Checklists
- Guides
- Appendices
- and other related material

Prekaro is committed to the communication of the company's WHS objectives. A written policy statement has been developed to communicate health and safety goals and objectives to all staff, subcontractors and suppliers.

Our commitment to Safety in Design means Prekaro aims to incorporate and communicate safety throughout all levels of a project, including how to deal with changes made during the life of the project. This procedure is in conjunction with the Quality Assurance Procedure Manual.
