

Louis Doucet | Subjectiles X

Vivement touché par la production de certains plasticiens, jeunes ou confirmés, l'auteur a éprouvé, en écrivant ce dixième volume d'essais critiques, le besoin d'en parler, d'exprimer son point de vue sans vouloir l'imposer comme une lecture univoque mais avec l'espoir de susciter, chez certains de ses lecteurs, l'envie de procéder à leur propre lecture. Car il s'agit bien d'une lecture, comme Roland Barthes le souligne : « [...] la critique est une lecture profonde (ou mieux encore : *proférée*), elle découvre dans l'œuvre un certain intelligible, et en cela, il est vrai, elle déchiffre et participe d'une interprétation. Pourtant ce qu'elle dévoile ne peut être un signifié (car ce signifié recule sans cesse jusqu'au vide du sujet), mais seulement des chaînes de symboles, des homologues de rapports : le sens qu'elle donne de plein droit à l'œuvre n'est finalement qu'une nouvelle efflorescence des symboles qui font l'œuvre. »

Lecture *proférée*, efflorescences de symboles, quête d'un intelligible qui fait tant défaut dans la critique institutionnalisée qui nous inonde, tels sont les mots-clés qui irriguent et nourrissent les textes ici réunis. Ils ont été écrits en période de confinements successifs, plus ou moins stricts, mais qui ont rendu difficile l'indispensable face-à-face avec les œuvres.

Subjectiles V Essais Critiques:

Subjectiles III - Essais critiques Louis Doucet, 2012-08-09 Ce troisieme volume de Subjectiles differe des precedents Au dela des textes monographiques consacres a de jeunes artistes on y trouvera quatre relectures ou commentaires de chefs d oeuvre du passe des considerations sur la thematique de l ineluctable emergence du dessin et de la peinture numeriques et des prises de position sur le triste sort que la societe francaise reserve a la creation contemporaine et a ses acteurs

Subjectiles V Collectif,,Louis Doucet, 2015-06-20 Qu en est il de la lecture d une oeuvre d art contemporaine Cette question est au centre de la plupart des textes rassembles dans ce recueil Comme dans les quatre volumes precedents la polysemie de l oeuvre et la subjectivite du regard et partant de la critique sont mises en avant non pas par un effet de posture ou de parti pris mais parce que toutes les tentatives d approche pretendument objective se heurtent a d incontournables contradictions ou sombrent dans la tautologie a travers ces textes Louis Doucet continue a militer pour une meilleure comprehension de la creation plastique de notre temps Un enjeu de taille car les arts plastiques sont d une importance capitale pour le corps social importance dont les politiciens et les gouvernants ont depuis longtemps compris le potentiel subversif Comprendre qu un fait en l occurrence une oeuvre plastique peut etre percu et interprete d une multitude de facons differentes et que chacune d elles est pertinente c est battre en breche les idees preconcuces et secouer des dogmes reputes intangibles C est eveiller la sensibilite puis la conscience C est admettre et reconnaitre la richesse de la diversite culturelle et sociale C est rendre l Homme maitre de ses choix et l inciter a cultiver sa difference

Derrida and the Writing of the Body Jones Irwin, 2016-04-22 Michel Foucault refers to 1965 1970 as in philosophical terms the five brief impassioned jubilant enigmatic years This book reinterprets Jacques Derrida s work from this period most especially in L criture et la Diff rence Writing and Difference and argues that a transformation takes place here which has been marginalized in readings of his work to date Irwin follows with a look at how the grammatological opening becomes crucial for Derrida s work in the 1970s and beyond incorporating one of his last readings of embodiment from 2000 By drawing our attention to the politics of desire and sexuality this groundbreaking book engages with the work of key continental theorists including Artaud Bataille Nietzsche Heidegger Habermas and Cixous whilst also examining Derrida s relationship with Plato and feminist theory It will appeal to a wide range of readers within the social sciences and philosophy particularly those with interests in gender and sexuality social theory continental thought queer studies and literary theory

Confronting Images Georges Didi-Huberman, 2005 According to Didi Huberman visual representation has an underside in which intelligible forms lose clarity and defy rational understanding Art historians he contends fail to engage this underside and he suggests that art historians look to Freud s concept of the dreamwork a mobile process that often involves substitution and contradiction

Antonin Artaud Edward Scheer, 2014-04-04 This resource collects for the first time some of the best criticism on Artaud s life and work from writers such as Jacques Derrida Julia Kristeva Maurice Blanchot Herbert Blau Leo Bersani and Susan

Sontag Antonin Artaud was one of the most brilliant artists of the twentieth century His writing influenced entire generations from the French post structuralists to the American beatniks He was a key figure in the European cinema of the 1920s and 30s and his drawings and sketches have been displayed in some of the major art galleries of the Western world Possibly best known for his concept of a theatre of cruelty his legacy has been to re define the possibilities of live performance Containing some of the most intellectually adventurous and emotionally passionate writings on Artaud this book is essential reading for Artaud scholars working in arts disciplines including theatre film philosophy literature and fine art **Antonin Artaud's**

Writing Bodies Adrian Morfee,2005-07-28 Antonin Artaud 1896 1948 perhaps best known as a dramatic theorist is an important but extremely difficult writer This book studies the development of his thinking from the early texts of the 1920s through to the acclaimed but lesser known 1940s writings on such issues as the body theology language identity and the search for an elusive and unsayable self presence and then uses this as a framework in which to read his late texts New attention is paid to the processes by which his texts generate meanings the logics that hold these meanings together and the internal contradictions of the late poetry This allows a new picture to emerge that accounts for the coherent if unequal development of his ideas as well as the drive towards systematisation to be found in even his most opaque writings By returning to the texts and focusing on the specific terms of Artaud s writing as well as their gleeful resourcefulness and ludicity it is argued that Artaud needs to be considered not as a contestatory psychotic but as a writer of the first magnitude Accessible to both scholar and newcomer this illuminating and original study will refocus critical thought on both the development of Artaud s thinking and the significance of his oft neglected later work Material Imagination Natalie

Adamson,Steven Harris,2017-07-24 Material Imagination examines the interrelated concepts of matter materialism and materiality in postwar European art from 1946 1972 Provides a unique perspective on European art by prioritizing material dimensions over concept or context while also paying attention to theoretical and historical concerns Explores artists methods and materials in order to better understand the social and cultural environments in which their works of art were made Demonstrates how materials can be harnessed to affect the critical interpretation of artwork Brings together exceptional illustrations and new research in eight essays by art historians and scholars **Art's Philosophical Work**

Andrew Benjamin,2015-06-03 What is the work of art How does art work as art Andrew Benjamin contends that the only way to address these questions is by developing a radically new materialist philosophy of art and by rethinking the history of art from within that perspective A materialist philosophy of art starts with the contention that meaning is only ever the after effect of the way in which materials work Starting with the relation between history materials and work art s work this book opens up a highly original reconfiguration of the philosophy of art Benjamin undertakes a major project that seeks to develop a set of complex interarticulations between art history and an approach to art s work that emphasizes art s material presence A philosophy of art emerges from the limitations of aesthetics The Thought Awaits Us All Daniela Calabrò,2024-10-25

This volume shows how Nancy was able to deconstruct the founding sign of all metaphysics and all transcendence by redefining the concepts of existence corporeality and community opening them up to the disclosure of the outside to the exception of the world It draws on the work of the Italian philosopher Roberto Esposito and includes a dialogue between Nancy and Esposito The overcoming of the modern perspective is covered by Descartes and Hegel who are analyzed in light of Nancy This text proposes a deconstruction of the Western tradition in its philosophical aesthetic and political registers and conveys a new ontology that breaks with the categories of the One and the Multiple the Universal and the Particular in order to identify the relationship between the plural and the singular and understand what it means to be together to be in common to be in the world It is suitable for scholars researchers and students of philosophy and comparative literature *Kafka's Monkey and Other Phantoms of Africa* Seloua Luste Boulbina, 2019-05-24 Even though many of France's former colonies became independent over fifty years ago the concept of colony and who was affected by colonialism remain problematic in French culture today Seloua Luste Boulbina an Algerian French philosopher and political theorist shows how the colony's structures persist in the subjectivity sexuality and bodily experience of human beings who were once brought together through force This text which combines two works by Luste Boulbina shows how France and its former colonies are haunted by power relations that are supposedly old history but whose effects on knowledge imagination emotional habits and public controversies have persisted vividly into the present Luste Boulbina draws on the work of Michel Foucault Frantz Fanon and douard Glissant to build a challenging original and intercultural philosophy that responds to blind spots of inherited political and social culture Kafka's *Monkey and Other Phantoms of Africa* offers unique insights into how issues of migration religious and ethnic identity and postcolonial history affect contemporary France and beyond **Antonin Artaud** Catherine Bouthors-Paillart, 1997 L'ensemble de l'oeuvre d'Artaud donne lire sinon la cohérence du moins la permanence et l'urgence vitale de la quête nonciative qui impulse son écriture si profuse si hétéroclite en apparence Ce livre tente de comprendre comment et pourquoi ce même auteur a pu écrire tantôt des textes qualifiés de pathologiques et d'illisibles tantôt des textes reconnus comme oeuvres littéraires **Annales de l'Institut technique du bâtiment et des travaux publics** Institut technique du bâtiment et des travaux publics (France), 1961 *Annales ...* Institut technique du bâtiment et des travaux publics, 1961 *Matériaux et techniques*, 1987 *Bulletin analytique*, 1940 **Report** India.
