Donald Harman Akenson, 1994-09-07 The career of Conor Cruise O'Brien reads like the work of several people not just one. Having served as a diplomat under Sean MacBride, he came to world prominence as special representative to Dag Hammarskjöld, Secretary General of the United Nations, in the then Congo. Squeezed ruthlessly by big power politics, he resigned and wrote *To Katanga and Back* 1962, a classic in modern African history and still the only book to get behind the polished marble facade to reveal how the United Nations works. O'Brien then became Vice Chancellor of the University of Ghana and battled for academic freedom against one of the most amiable of tyrants, Kwame Nkrumah. He moved on to become the first incumbent of the Schweitzer Chair at New York University. His relations with the New York intellectuals of the time were productive, acrimonious, sometimes comic, and part of a central chapter in the intellectual history of America in the 1960s. From 1969 to 1977, O'Brien was probably the most hated person in Ireland as well as one of the most heroic. One of the first to see the fascistic nature of the Provisional IRA, he began an unrelenting campaign against its terrorism. In that campaign, he called into question the basic myths upon which the Irish republic was constructed. His *States of Ireland* 1972 is the most publicly influential piece of Irish historical writing since John Mitchel's *The Last Conquest of Ireland* 1860, and many students of Irish history believe that O'Brien's work in the 1970s was crucial to averting civil war in Ireland. Whatever one thinks about this extraordinary man, one cannot ignore him. He may well be the most important Irish nonfiction writer of the twentieth century, with writings as widely scattered as they have been influential. Volume I, *Narrative*, is the biography of one of the most controversial, engaging, and courageous individuals of this century. Volume II, *Anthology*, brings together his best short pieces, many of which originally appeared in such periodicals as *The Spectator*, *The New Republic*, *Harper's*, *The Atlantic*, *The New Statesman*, *The Observer*, and *The New York Review of Books*, and have never been reprinted. A complete bibliography of O'Brien's work is also provided. *A History of the Dublin University Press, 1734-1976* Vincent Kinane, 1994 In this book, the author deals with every aspect of the production process of the Dublin University Press: the building and equipment, the personnel, and working conditions, the policy and finance, and the output and its publication. He has also set the history of the Press in the context of the Dublin printing and publishing trade of the day. McMahon,2015-04-13 Though Ireland is a relatively small island on the northeastern fringe of the Atlantic 70 million people worldwide including some 45 million in the United States claim it as their ancestral home In this wide ranging ambitious book Cian T McMahon explores the nineteenth century roots of this transnational identity Between 1840 and 1880 4 5 million people left Ireland to start new lives abroad Using primary sources from Ireland Australia and the United States McMahon demonstrates how this exodus shaped a distinctive sense of nationalism By doggedly remaining loyal to both their old and new homes he argues the Irish helped broaden the modern parameters of citizenship and identity From insurrection in Ireland to exile in Australia to military service during the American Civil War McMahon's narrative revolves around a group of rebels known as Young Ireland They and their fellow Irish used weekly newspapers to construct and express an international identity tailored to the fluctuating world in which they found themselves Understanding their experience sheds light on our contemporary debates over immigration race and globalization
