**Jimu: Inside the Higher Education Space**, 2023-06-27 This book is empirically grounded on Ignasio Malizani Jimu's firsthand experience of governance and quality control in Malawi higher education. Informed by the liberalisation of higher education and the quality turn in Africa, this book reflects on higher education policy, how higher education institutions manage their core business processes, the dynamic character of their stakeholdership and governance and management arrangements that are involved. Its primary purpose is to contribute to the discourse on increasing access to regulation of and more importantly the pursuit of quality culture in higher education. Key questions, insights and directions have been packaged in eight chapters, some of which are the purpose and inclusion in higher education stakeholdership context and quality culture in private higher education institutions, peer reviews as quality control mechanism, quality rating of institutions and setting and operating quality assurance units. It is intended for higher education managers, policy makers and students of higher education management. [The Development of Tertiary Education in the Eastern African Region](#) Isabella M. Musyoka-Kamere, Daniel Namusonge Sifuna, Kisilu Kombo, 2023-11-16 This book gives a riveting account of the higher education advancements made in five East African countries, each presenting unique characteristics. While some of the countries enjoyed relative calm throughout their years of growth and development, others have endured a turbulent past marked by civil war, coups and other forms of unrest, including one of the most atrocious genocide events ever recorded in the history of mankind. It is a known fact that the past defines the present and describes the future. The book specifically tracks the historical development of teacher education, technical and vocational education and training, and university education in Kenya, Uganda, Tanzania, Rwanda, and Burundi. The extensive research and up-to-date accounts provide a rich overview of tertiary education in the five countries, with candid reviews of the past, the current situation, and perspectives on the future. The book is a refreshing addition to the books of history and education and a must-read for students, professionals, and policy makers in the field of higher education, as well as scholars of history. [Gender-Inclusive Higher Education in Tanzania](#) Susan P. Murphy, Perpetua John Urio, 2024-08-02 Whilst there is an extensive body of research exploring the barriers to gender equality and female empowerment in high-income states, there are far fewer systematic analyses within lower-income settings. This book draws on extensive empirical data to analyse gender mainstreaming and gender transformative actions in Tanzanian higher education. The book maps the practical landscape of gender mainstreaming across 14 universities in Tanzania and the theoretical landscape of African theories of masculinities and femininities underpinning educational institutions and practices. It then assesses the Gender Awareness and Transformation through Education project, which was designed to support the development of gender expertise and capacities in research and education at one specific institution across both its administrative and academic units. Current and future academics at Dar es Salaam University College of Education were trained in gender-based research and education, and a strategic plan was developed to guide in the

establishment of a Gender Research Centre that will provide gender expertise in research and teaching to the College and over time to other HEIs nationally and regionally By bringing together real world insights from action based research the book demonstrates the impact of real time social change and gender transformation with implications both for Tanzania and beyond Bringing novel empirical insights and policy recommendations this book will be of interest to researchers and policy makers across the fields of gender studies education and African studies      Financing of Higher Education N.V.

Varghese,Jinusha Panigrahi,2023-01-24 This book reviews and analyses higher education financing and explores the innovative ways by both public higher education and private higher education institutes in the context of globalization with India Russia and Tanzania as a case study It examines the diverse policy discourses which greatly influence the higher education systems based on evidence based research This book is arranged into four major themes Part 1 deals with the various possible modes of financing of higher education such as the credit market and voucher system Part 2 deals with strategies to mobilize the resources Part 3 deals with innovative and sustainable approaches to financing private higher education institutions Part 4 discusses the policies and limitations with external financing of higher education It is an interesting collection of various themes in different chapters by serious researchers It is an excellent read for students educators and policymakers interested in alternative and innovative practices in higher education financing It is a highly informative book for researchers providing insights on how social and political dynamics impact higher education financing
