[Race, Curriculum, and the Politics of Educational Justice](#) Wayne Au, This one of a kind collection will help today s educators feel and understand the power that communities can harness through organizing and solidarity This volume

highlights some of Wayne Au's most impactful essays and articles across his 25 years as an educator, activist, and scholar. In this carefully curated collection, Au traces the development of his politics and analyses of schooling, education policy, curriculum, and racialization. Featuring concrete examples, chapters address antiracist education and the politics of knowledge, the racial politics of high stakes testing, and neoliberal education reforms and the racialization of Asian Americans as a model minority and its connection to anti-Blackness. Importantly, this book illustrates the power of writing for different audiences by placing scholarly essays alongside those written for teachers, parents, and community members, while also linking educational activism with educational research. In addition to providing a broad examination of the politics of curriculum and educational policy in America, the book features:

- Written by an internationally known scholar in the areas of curriculum, multicultural, and antiracist education.
- High stakes testing and neoliberal reforms.
- Racial justice and critical education.
- Provides a model for how to translate educational research and analysis between academic and public discourses, embodying the intersections of theory, practice, and justice.
- Combines searing political analysis of education with the hope offered through activism, solidarity, and educational justice.

School Libraries Matter Mirah J. Dow, 2013-06-17

As school districts across the United States increasingly question the need for trained librarians, this collection of research-based evidence helps make the case for a state-licensed librarian in every school. While serving on the AASL legislation committee, Mirah Dow recognized the urgent need to utilize research-based evidence to prove school librarians are much more than an educational luxury. This collection is the result. It brings together school library research studies and findings from the past decade and draws connections to how they can be applied to situations and questions that occur in practice. Taken as a whole, the research underscores that state-licensed school librarians are a necessity for 21st-century students. Chapters center on important research studies from the past decade that examine data and locate school libraries within operational contexts. Methodologies are explained, and findings summarized, while notes clarify practical applications for

school librarians Because each chapter includes a connection to broad realms of theoretical influence in the social sciences the work will also be relevant to educators and public policymakers arming them to better communicate research based links between investments in school libraries and student learning outcomes
