

AUTOBIOGRAPHY (SAMPLE)

- JANICE P. MORGAN -

I was born and raised in the United Kingdom (UK), where I lived until the summer of 2000. Having made the decision to move to the United States, much to the chagrin of my parents, I moved to the US and settled in North Carolina. I attended East Carolina University, majored in Elementary Education, and graduated cum laude. Living in the United States has provided me with opportunities to grow and develop, both in my personal and professional life.

As a child growing up in the UK, I was fortunate to attend a well-regarded, private boarding school from kindergarten through high school. The private, all girls school professed a strong educational and ethical philosophy that has remained with me throughout my life. It is this foundation, along with the continued support of my family, educators, and friends that has allowed me to embrace my dream of teaching children.

The year 2002 was the best year of my life. In this, my graduation year, I successfully completed my teaching practicum and also met the man that I would later marry. In 2004, John and I married in the UK, with full attendance by family and friends; it was one of the most important events in my life. A short time later, in November, 2005, I took on another important role in my life, that of mother. The birth of my daughter, Emma, was a turning point in my life, and I made the conscious decision that it was in her best interest that I become a stay-at-home mother before embarking on my teaching career. Because I had a child of my own to nurture and care for, I became more aware of children who do not have the support and nurturing they need to realize their full potential. This created in me great concern about children and lit the flame of desire to return to my teaching career path. I am now entering the teaching arena with a renewed idea of what I would like to achieve as an educator.

This September, it is my hope to secure a teaching position and continue with my dream of teaching today's children. With the wonderful support of my husband and the love of my daughter, I know that I will become a teacher who young children look up to, someone who children can trust, who will always "go the extra mile" to ensure their success.

Osborn, 2003-10-30 The Language Teachers s Portfolio A Guide for

Professional Development is written for use by both preservice and inservice teachers. It links elements of educational practice and theory that students of education frequently find difficult to assimilate in language teaching. This text purposefully integrates material such as foundations of education, educational psychology, elements of planning and lesson preparation, reflective teaching, and classroom management issues into the reality of the language classroom. Thus students of world language education are provided a holistic perspective of the challenges required to bring what may seem to be disjointed theoretical information into workable elements of classroom practice. Teacher educators can utilize this text to guide students to use the portfolio as an assessment tool or a project for an instructional development class. The material in the text is designed so that students are able to rely on the text to guide them in preparing many elements of a portfolio, thus freeing educators to devote more classroom time to other topics. It is also useful for programs that have a portfolio as an exit requirement and for teachers who plan to use the portfolio to document their professional development.

Handbook of Instructional Practices for Literacy Teacher-educators Joyce E. Many, 2001-01-01. This volume offers a unique glimpse into the teaching approaches and thinking of a wide range of well-known literacy researchers and the lessons they have learned from their own teaching lives. The contributors teach in a variety of universities, programs, and settings. Each shares an approach he or she has used in a course and introduces the syllabus for this course through personal reflections that give the reader a sense of the theories, prior experiences, and influential authors that have shaped their own thoughts and approaches. In addition to describing the nature of their students and the program in which the course is taught, many authors also share key issues with which they have grappled over the years while teaching their course. Others discuss considerations that were relevant during the preparation of this particular syllabus or describe how it evolved in light of student input. The book is organized by areas within literacy education: reading, English language arts, literature, emergent literacy, content area literacy, literacy assessment, and instruction, literacy and technology, and inquiries into literacy theory and classroom practice. It is accompanied by an interactive Web site: <http://msit.gsu.edu/handbook>. This online resource provides additional information about the authors' courses, including complete syllabi, recommended readings, grading rubrics, and sample assignments. Readers are invited to respond and contribute their own syllabi and teaching experiences to the discourse generated by the volume.

Teacher Skills and Strategies Peter Woods, 1990. Presents a general model of teaching which encompasses both social aspects of teaching skills and coping strategies more concerned with survival and self. The book has particular import in the aftermath of the Education Reform Act.

Teacher Selection and Interview Portfolios Ronald K. Theel, 2002-04-27 The major research questions for this study were a What forms do teacher interview portfolios take b What meaning do school principals make of

these portfolios c How if at all are teacher portfolios being used by principals in deciding whom to hire This was a case study using qualitative research procedures The study was situated in the hiring policies and practices of Central City School District from 1995 to 1999 Semi structured interviews of 18 k 12 principals and 4 key informants were primary means of data gathering Document analyses supplemented interview data Interview portfolios typically consisted of lesson plans photographs of projects activities and teacher student interactions and supporting examples of classroom practice Statements of educational philosophy credentials letters of reference transcripts and other background information were also included Most principals viewed portfolios as a way for candidates to express their educational beliefs illustrate skills and methods and supplement the interview with examples from applicants experience Principals expressed a desire for more evidence of having used the portfolio development process as a means of reflection and introspection Overall interview portfolios were not key contributors to principals hiring decisions The reasons for this varied Some principals mentioned time constraints during interviews Others expressed skepticism that portfolios provided meaningful evidence of candidates teaching ability and people skills Propositions and implications for future research center on portfolio format and assessment criteria authenticity and self knowledge selection interview procedures teacher preparation teacher recruitment and hiring and information management in Central City School District Perhaps one of the most valuable benefits of the portfolio process lies in the development of a new norm for the profession placing discussion and debate about what constitutes good teaching into a public forum
