Emphasizing an appreciation for street lit as a way to promote reading and library use, Morris's book helps library staff establish their street cred by giving them the information they need to provide knowledgeable guidance. *Fictions of Integration* Naomi Lesley, 2017-03-03. This book examines how children's and young adult literature addresses and interrogates the legacies of American school desegregation. Such literature narrates not only the famous battles to implement desegregation in the South in places like Little Rock, Arkansas, but also more insidious and less visible legacies such as re-segregation within schools through the mechanism of disability diagnosis. Novelizations of children's experiences with school desegregation comment upon the politics of getting African American children access to white schools, but more than this, as school stories, they also comment upon how structural racism operates in the classroom and mutates over the course of decades through the pedagogical practices depicted in literature for young readers. Lesley combines approaches from critical race theory, disability studies, and educational philosophy in order to investigate how the educational market simultaneously constrains how racism in schools can be presented to young readers and also provides channels for radical critiques of pedagogy and visions of alternative systems. The volume examines a range of titles from novels that directly engage the Brown v Board of Education decision, such as Sharon Draper's *Fire From the Rock* and Dorothy Sterling's *Mary Jane*, to novels that engage less obvious legacies of desegregation, such as Cynthia Voigt's *Dacey's Song*, Sharon Flake's *Pinned*, Virginia Hamilton's *The Planet of Junior Brown*, and Louis Sachar's *Holes*. This book will be of interest to scholars of American studies, children's literature, and educational philosophy and history. **Bridging Literacy and Equity** Althier M. Lazar, Patricia Ann Edwards, Gwendolyn Thompson McMillon, 2012-06-29. Extraordinary K-12 teachers show us what social equity literacy teaching looks like and how it advances children's achievement. Chapters identify six key dimensions of social equity teaching that can help teachers see their students' potential and create conditions that will support their literacy development. Serving students well depends on understanding relationships between race, class, culture, and literacy; the complexity and significance of culture; and the culturally situated nature of literacy. It also requires knowledge of culturally responsive practices such as collaborating with and learning from caregivers, using cultural referents, enacting critical and transformative literacy practices, and seeing the capacities of English Language Learners and children.
