Dewey, Education, and the Mediterranean, 2022-10-24

There are few if any other educational philosophers that have left their mark internationally as John Dewey has. Author of 40 books and no less than 700 articles that appeared in over 140 journals, Dewey's work has been translated into at least 35 languages. His landmark *Democracy and Education* published over a century ago in 1916 is one of the most cited educational texts ever. Dewey has inspired educators and provoked controversies in his day and still does so today. This volume sets out to engage with Dewey's educational thought especially as it relates to its circulation in the countries bordering on the Mediterranean. Authors consider his enduring influence and reflect on the push and pull forces that served to anchor progressivism in its multiple manifestations in the region. The notion of a unidirectional force personified by Dewey that is somehow absorbed by the receiving country is problematised by most if not all chapters in this volume. Rather contributors carefully show how context affects a process marked by active appropriation, re-interpretation, adaptation as well as resistance. Sometimes a vibrant presence that still needs to be reckoned with, at other times a ghostly figure nevertheless serving to sustain democratic aspirations in and through education. Dewey and his message resonate, challenge and demand a response.

Teaching and Teacher Education Rohit Setty, Radhika Iyengar, Matthew A. Witenstein, Erik Jon Byker, Huma Kidwai, 2019-11-07 This edited volume brings together diverse thinkers and practitioners from the field of teaching and teacher education as it pertains to educational development in South Asia. In this volume authors draw from their research practice and field experiences showcasing how teaching and teacher education are currently being carried out, understood, theorized, debated and implemented for the education of children and teachers alike in South Asia. The volume also includes practitioner voices which are often marginalized in academic discourse. This book acts as a key reference text for academics and practitioners interested in the intersection of education and development in the region and in particular what it takes to pull off ambitious teaching and teacher education in South Asia.
