Challenging Dominant Forms of Supervision,*  
by John Smyth. Philadelphia, PA:  
Open University Press, 1991, 137 pp.**

Reviewed by: DAVID D. WILLIAMS

The seventh in a series edited by Christopher Day titled "Developing Teachers and Teaching", this book is an invitation to teachers to take greater control of their own teaching and professional development by collaborating with other educators to describe, interpret, and revise their work—an alternative view of teacher evaluation. Smyth critiques various practiced versions of a common notion of teacher evaluation—clinical supervision, claiming this approach is often used by administrators as a technical and psychological means of controlling teachers. In contrast, he "argues the need to move from close surveillance of teachers to teacher-initiated critical inquiry" (p. 1).

In Chapter One, Smyth documents the foundation of clinical supervision on principles of scientific management and argues that the assumptions associated with that outmoded view of teachers has been de-humanizing.

In Chapter Two, he notes that supervision as many experience it "is suffering from a legacy of being affiliated with an outmoded interpretation of science and technology" (p. 20). He argues that this form of evaluation has been "social engineering in the guise of neutral science [which] no longer suffices."

In Chapter Three, Smyth critiques the widespread adoption of the Madeline Hunter "teaching/supervision model" of clinical supervision and claims that schools' uses of this approach have ignored and silenced teachers in attempts to reform education.

In Chapter Four, he suggests that teacher supervision was originally meant to be a very different activity than it has become. Smyth invites the reader to consider "shift[ing] supervision from its current oppressive managerial preoccupation with accountability, quality control, efficiency, effectiveness, and sanction-ridden forms of surveillance" and to "embrace more robust possibilities that question the presumed supremacy of the

## **Teachers As Collaborative Learners Challenging Dominant Forms Of Supervision:**

Teachers as Collaborative Learners John Smyth, 1991 A critique of prescriptive educational reforms which have produced alienation demoralization and fragmentation among teachers and schools in Western industrial societies The author argues that teachers should be given control over their own teaching and their own development as professionals **Rethinking Instructional Supervision** Duncan Waite, 2004-06-02 Published in the year 19595 Rethinking Instructional Supervision is a valuable contribution to the field of Education **Standards for Instructional Supervision** Steven Gordon, 2020-03-25 The standards in this book will enhance teaching and learning The list of the book's contributors reads like a Who's Who in the field of instructional supervision These standards are practical specific and flexible so that schools and districts can adapt them to their own contexts and goals Each set also includes activities for professional development Critical Pedagogy for Social Justice John Smyth, 2011-10-20 We live in a time when those who wield unrestrained power believe they have the inalienable right to determine the destiny nature and shape of social institutions like schools Critical Pedagogy for Social Justice challenges this arrogance by showing how teachers students parents communities and researchers can develop narratives that amount to working with and for those who are increasingly being silenced marginalized and excluded John Smyth sets out to revisit critical pedagogy from a number of key leverage points The overarching aim of this book is to unmask the deforming and distorting way power operates while at the same time revealing how a commitment to a more socially just world can exist in the everyday lives and narratives of people who have a passion for transformative possibilities His clear concise and persuasive book is ideal for those who are dissatisfied with the current turn in education and who are seeking an alternative set of views that emerge from the grounded experiences and practices in schools struggling with the most disadvantaged circumstances Teacher Education: Professionalism, social justice and teacher education David Hartley, Maurice Whitehead, 2006 *Paradigm Debates in Curriculum and Supervision* Linda Behar-Horenstein, Jeffrey Glanz, 2000-01-30 Paradigm debates in the educational research community are a frequent if not common occurrence How do paradigm debates in other educational fields such as curriculum and supervision shape educators understanding and practice In this volume it is suggested that educators adherence to particular views of curriculum and supervision is influential in guiding their beliefs and subsequent actions For example a widely accepted belief is that if an individual adopts a mechanistic view of the curriculum then s/he is likely to deliver a curriculum grounded in pre established objectives and evaluate student achievement in relationship to formulated objectives Postmodernists contend that such educators are bound by rigid bifurcation and a constrictive linear logic In supervision educational leaders who favor leadership styles comprised by autocratic behaviors tend to create school climates that favor a top down approach to human relationships Autocratic leaders rely on hierarchical organizational structures and styles that seek to instill compliance and subordination Yet prospective administrators who want concrete proposals put in practice find modern perspectives of supervision helpful In

contrast postmodern supervisors allege that such leaders disallow the emergence of relevant and authentic relationships that might occur when conventional hierarchical structures are diminished and open lines of communication between teachers students administrators become normative The chapters in this book present an in depth analysis of how an individual s predisposition towards modern and postmodern views of curriculum and supervision are likely to influence 1 curriculum development 2 teaching styles 3 leadership styles 4 teacher and student evaluation and 5 the missions intrinsic to the creation of professional preparation programs that serve to promulgate existing practice or create a new order of teachers and administrator *The Practice and Theory of School Improvement* David Hopkins,2008-05-13 ANDY HARGREAVES

Biddle, T.L. Good, I. Goodson, 2013-11-11 Recent years have generated a huge increase in the number of research and scholarly works concerned with teachers and teaching and this effort has generated new and important insights that are crucial for understanding education today This handbook provides a host of chapters written by leading authorities that review both the major traditions of work and the newest perspectives concepts insights and research based knowledge concerned with teachers and teaching Many of the chapters discuss developments that are international in scope but coverage is also provided for education in a number of specific countries Many chapters also review contemporary problems faced by educators and the dangers posed by recent politically inspired attempts to reform schools and school systems The Handbook provides an invaluable resource for scholars teacher educators graduate students and all thoughtful persons concerned with the best thinking about teachers and teaching current problems and the future of education

Enhancing Autonomy in Language Education Manuel Jiménez Raya, Flávia Vieira, 2015-04-24 The book explores the idea that pedagogy for autonomy requires the integration of teacher and learner development and can be enhanced through a case based approach in teacher education A case based approach values experiential professional learning and expands professional competences necessary to promote autonomy in schools developing a critical view of language education managing local constraints so as to open up spaces for manoeuvre centring teaching on learning interacting with others in the professional community Two strategies to implement the approach are presented and illustrated The first one involves teachers in designing implementing and evaluating experiences of pedagogy for autonomy which are the basis for writing professional narratives and building a case portfolio The second draws on teachers pedagogical experience as the basis for the construction of case materials where experiential elements are combined with theoretical input and reflective tasks so that the teachers who use those materials can reflect about and explore their own practice Extending the Boundaries Allan Edwards, James Skinner, Keith Gilbert, 2002 **IJER Vol 9-N4** International Journal of Educational Reform, 2000-10-01 The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities As the only peer reviewed scholarly publication that combines authors voices without regard for the political

affiliations perspectives or research methodologies IJER provides readers with a balanced view of all sides of the political and educational mainstream To this end IJER includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy administration curriculum instruction law and research IJER should thus be of interest to professional educators with decision making roles and policymakers at all levels turn since it provides a broad based conversation between and among policymakers practitioners and academicians about reform goals objectives and methods for success throughout the world Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes Finally it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U S and the world
