

# Teachers Day Speech

Good morning respected Principal sir, all the teachers, and dear students. Today we have gathered here to celebrate the Teachers' Day. Teachers' Day is celebrated on 5th September to mark the birth anniversary of Dr. Sarvepalli Radhakrishnan. He was a philosopher, a teacher, and an author.

First, I would like to wish all my respected teachers a very happy Teachers' Day. Teachers are undoubtedly the backbone of the society. They play a big role in building the character of students. They give us knowledge, believe in us, and help us achieve our dreams.

On behalf of all students, I would like to thank all the teachers for the tireless efforts they make to give us knowledge and shape our future.

Happy Teachers' Day!

Thank you

## Teachers Day Speech In:

Take Off! 5 Vijaya Subramaniam, Charu Rekha, **Representations of Children and Success in Asia** Shih-Wen Sue Chen, Sin Wen Lau, 2022-09-28 This edited volume explores how success is conceptualized and represented in texts for young people in Asia The essays in this collection examine how success for children relates to education family gender race class community and the nation It answers the following questions How is success for children represented in literature cinema and popular media In what ways are these images grounded in the historical political and cultural contexts in which they are produced and consumed How does childhood agency influence ideas about success in Asia Highlighting the similarities and differences in how success is defined for children and young adults in Japan South Korea People s Republic of China Singapore Taiwan Indonesia Vietnam and India this volume argues that success is an important keyword in the literary and cultural study of childhood in Asia The Rise of Ecofascism Sam Moore, Alex Roberts, 2022-01-26 The world faces a climate crisis and an ascendant far right Are these trends related How does the far right think about the environment and what openings does the coming crisis present for them This incisive new book traces the long history of far right environmentalism and explores how it is adapting to the contemporary world It argues that the extreme right after years of denying the reality of climate change are now showing serious signs of reversing their strategy A new generation of far right activists has realized that impending environmental catastrophe represents their best chance yet for a return to relevance In reality however their noxious blend of conspiracy hatred and violence is no solution at all it is the eco socialism of fools Only a real commitment to climate justice can save us and stop the far right in its tracks No one interested in the struggle against right wing extremism and the crusade for climate justice can afford to miss this trenchant critique of burgeoning ecofascism
