## Teaching 2016 Intake Bursaries:

**Refugee Education** Joanna McIntyre, Fran Abrams, 2020-11-26 In the last five years more child refugees have made perilous journeys into Europe than at any point since the Second World War Once refugee children begin to establish their new lives education becomes a priority However access to high quality inclusive education can be challenging and is a social justice issue for schools policymakers and for the research community Underpinned by strong theoretical framings and based on socially just principles this book provides a detailed exploration into this ethically charged emotive and complex subject Refugee Education offers an interdisciplinary perspective to critical debates and public discourse about the topic contextualized by the voices of young refugees and those seeking to support them in and out of education Shaped by practitioners the book develops an inclusive model of education for refugee children based on the concepts of safety belonging and success and presents practical tools for planning and operationalizing the ethics of inclusive education This book includes a wide range of case study examples which reveal the positive outcomes that are possible given the right inputs It is essential reading for teachers senior leaders and policymakers as well as academic researchers in education social policy migration and refugee studies Research Handbook on Quality, Performance and Accountability in Higher Education Ellen Hazelkorn, Hamish Coates, Alexander C. McCormick, 2018-07-27 As higher education becomes a key determinant for economic competitiveness institutions face increasing pressure to demonstrate their fitness to meet the needs of society and individuals Blending innovative research with richly contextualised examples this unique Research Handbook provides authoritative insights from around the globe on how best to understand assess and improve quality performance and accountability in higher education *Parliamentary Debates. Legislative Council and House of Representatives* New Zealand. Parliament, 1987 New Zealand Hansard New Zealand. Parliament. House of Representatives, 1991 **South African Schooling: The Enigma of Inequality** Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back

on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

**The Empathy Gap** William Collins,2021 From the ebook Preface This book majors on the presentation of empirical evidence in the form of data The most digestible form for communicating such material is through the use of Tables and Figures generally graphs Consequently the book has a great many Tables and Figures and the latter are often in colour Viewing on a device capable of rendering colours is therefore recommended although monochrome will be adequate in most cases The Empathy Gap proposes the thesis that men and boys are extensively disadvantaged across many areas of life including in education healthcare genital integrity criminal justice domestic abuse working hours taxation pensions paternity homelessness suicide sexual offences and access to their own children after parental separation The claim is justified in the book by empirical evidence mostly but not exclusively from the UK involving nearly 1 000 references 179 Figures and 49 Tables To most people of both sexes this will appear to be a perverse perspective as disadvantage has become the province of women girls and minorities not males Yet the empirical case supporting the disadvantages suffered by men and boys is undeniable to the objective mind But if this is so why is the popular perception that males are privileged whereas disadvantage is the province of the opposite sex Why do the male disadvantages go largely unremarked by both sexes if they are so pervasive Presenting the case for widespread and substantial male disadvantage is also a challenge to the usual hegemonic paradigm of feminist theory These issues are addressed within The Empathy Gap by presenting an entirely different orientation on the social psychology of relations between the sexes Out goes the idea of an oppressive patriarchy Instead a man's participation in the human pair bond is seen to be altruistic a phenomenon arising originally from evolution and enacted in the individual via the emotional psyche This is the origin of an asymmetry in the perception of the sexes which normalises the preferencing of females and therefore inevitably disadvantages males as a corollary The successful evolved strategy involves male utility and relative male disposability the latter being facilitated by a muted empathy for males by both sexes the empathy gap Rather than working to overcome this male disposability as a true egalitarian movement would have done feminism has fed upon it and amplified it The feminist project relies upon the true state of affairs remaining unacknowledged and the empathy gap is instrumental in its own invisibility In respect of this theory the author makes no claim for originality The ideas presented have been circulating within the sub culture for decades However the focus of the book is to show how these ideas are manifest in practice

Language Narratives and Shifting Multilingual Pedagogies Belinda Mendelowitz,Ana Ferreira,Kerryn Dixon,2022-12-15 Winner of the UKLA Academic Book Award 2024 This book challenges monoglossic ideologies traditional language pedagogies and dominant forms of knowledge construction by foregrounding multilingual and multicultural students language narratives repertoires and identities The research is based on a sixteen year longitudinal study of a sociolinguistics course at an English language university and the language

narratives produced by the first year education students The study was borne out of a need to create a critically inclusive course that would engage a cohort of students from socially and linguistically diverse backgrounds in contemporary South Africa Drawing on data from over 5 000 students who have journeyed through this course this book shows how a narrative heteroglossic pedagogy harnesses students multilingual strengths A close analysis reveals complex identity work by students located in the Global South The authors argue that decolonising language education is about reconceptualising language reconfiguring what knowledges are valued in the classroom and reshaping pedagogy *The University of Oxford* L. W. B. Brockliss,2016 This fresh and readable account gives a complete history of the University of Oxford from its beginnings in the 11th century to the present day charting Oxford s improbable rise from provincial backwater to modern meritocratic and secular university with an ever growing commitment to new research Professional Bursaries and Other Opportunities for Teachers in Their 4th and 5th Years of Teaching Great Britain.
