Becoming One With the World Kathleen Kesson, 2024-08-01 *Becoming One With the World* A Guide to Neohumanist Education responds to an urgent need to reconceptualize the fundamentals of education in light of the many social ecological and political challenges facing humanity

today It answers the call for a new educational paradigm one based on a far richer more insightful understanding of human possibility one that decenters human exceptionalism in favor of a new ecological consciousness one that promotes harmony and cooperation between humans and non human others and one that cultivates wisdom Neohumanist education strives for a harmonious balance between spiritual development and critical engagement with the world in the belief that an awakened conscience translates into transcending differences and creating a sense of unity with all beings The book is designed to enhance the spiritual and pedagogical knowledge and skill of teachers parents and school leaders who are seeking more holistic approaches to educating young people Both richly theoretical and eminently practical the book applies the primary commitments of Neohumanist education cultivating love and kinship with humans and non human others freeing the mind from dogma and limitations fostering a balanced approach between inquiry into the outer objective world s and the inner subjective world s and awakening the desire for social and environmental justice to the full spectrum of traditional subject matter It draws upon a wide range of new research and scholarship to illustrate an educational model capable of maximizing human potential and inspiring young people to create a future that is just joyful and sustainable

ENDORSEMENTS What a wonderful book Packed into its pages are decades of experience as a meditator yogi parent educator and Neohumanist This latter is the crux of this text designed to lay out in clear accessible language the fundamentals of this rich and inspiring philosophy and to touch on ways it can find its way into the daily flow of the classroom and school A philosophy worth its salt is one that actually makes a difference in the day to day lives of people In Kathleen Kesson and her comprehensive book we find just this practical pragmatic insights into a philosophy both new and ancient It is a gift to educators and anyone committed to wholesome futures for children society and of course the planet Marcus Bussey University of the Sunshine Coast Australia

Becoming One With the World is an extraordinary book While its primary aims are explaining the philosophy of Neohumanism and detailing a Neohumanistic approach to education it is simultaneously a comprehensive summary and synthesis of scholarly literature in the field of holistic education Unifying knowledge and methods from many curricula areas including spirituality ecology aesthetics literacy cultural diversity and ethics it offers a clear orientation to a way of educating young people that seems key to human surviving and thriving Aostre Johnson Saint Michael s College in Vermont

The Essentials of Social Studies, Grades K-8 Kathy Checkley, 2008-01-15 In today s climate of accountability and high stakes testing many U S schools are choosing to focus on the three Rs to the exclusion of other subjects including social studies Yet it is more crucial than ever for schools to foster the qualities that will enable students to actively participate in a democratic and global society The Essentials of Social Studies Grades K 8 takes a look at how innovative educators are helping students to hone these skills Readers of this book will learn more about The challenges that elementary and middle school teachers face in keeping social studies in the curriculum How to align social studies lessons with curriculum standards Strategies to infuse social studies instruction with passion and purpose Ways to promote students deep understanding of social studies

content Why lessons and assessments should give students opportunities to solve problems work on projects and engage in simulations How social studies can prepare students for a lifetime of active civic involvement Professional development that will help teachers bring the social studies curriculum to life in the classroom The future of the United States in no small part depends on how well social studies teachers prepare students to assume their responsibilities as citizens The Essentials of Social Studies Grades K 8 will help teachers rise to this considerable challenge *Dancing in the Light* Marcia Behrenbruch,2012-11-04 Sustainability globalization the rapid growth of knowledge and the need for internationally minded citizens require a rethinking of education Concept based inquiry learning has been offered for over a century as an alternative to traditional education centered on textbooks invasive standardized testing and control external to the student Yet the widespread change in teaching styles required to shift education to meet 21st century requirements has been sporadic at best This book tells several stories The first is a teacher s journey to discover a different way of teaching and learning The second is a summary of the theory used to explain and justify the change in pedagogy to the wider school community The third are stories from student and teachers who practice inquiry learning The result is a description of 6 essential elements for a successful inquiry learning environment Although this research was conducted at a single school it offers important insights for other schools who are considering change to a more constructivist sustainable approach to education Marcia Behrenbruch has taught at all levels of schooling from the early years to year 12 She has lived and worked in Canada the Netherlands Australia Vietnam and Singapore Most of her 15 years in school administration focused on curriculum innovation and facilitating change She completed her doctoral studies at Melbourne Graduate School of Education and is currently a global head of professional development for an international not for profit educational organization **Cross-disciplinary STEM Learning for Asian Primary Students** Winnie Wing Mui So,Zhi Hong Wan,Tian Luo,2023-11-27 Given the importance of student learning in the various types and integration of STEM education this book provides a landscape of cross disciplinary STEM learning in Asian primary schools and a systematic overview of design practices and outcomes of STEM learning implementation Science Technology Engineering and Mathematics STEM has continued to attract attention worldwide and there have been calls for the promotion of STEM education in primary schools to nurture students to meet the needs of societies in terms of innovation and technology development Since STEM is complex in nature and is related to various disciplines the effort of a single discipline may not be as effective as cross disciplinary efforts This edited volume involving an Asian team of authors examines how cross disciplinary STEM learning can be designed for students to achieve viable outcomes and what opportunities and challenges have been offered to the next generation to equip them with the necessary skills knowledge and ways of thinking as well as attitudes and values for lifelong learning A resourceful text for students researchers and practitioners interested in the rich development of STEM education and practical methods for a variety of learning approaches from elementary to secondary education has been provided
