Zhang, Ji-Huan He, Yuxi Fu, 2005-01-18 The 2004 International Symposium on Computational and Information Sciences CIS  
2004 aimed at bringing researchers in the area of computational and formation sciences together to exchange new ideas and  
to explore new ground The goal of the conference was to push the application of modern computing technologies to science  
engineering and information technologies to a new level of sophistication and understanding  
The initial idea to organize such a conference with a focus on computation and applications was originated by Dr Jun Zhang  
during his visit to China in August 2003 in consultation with a few friends including Dr Jing Liu at the Chinese Academy of  
Sciences Dr Jun Hai Yong at Tsinghua University Dr Geng Yang at Nanjing University of Posts and Communications and a few  
others After several discussions with Dr Ji Huan He it was decided that Donghua University would host CIS 2004 CIS 2004  
attempted to distinguish itself from other conferences in its phasis on participation rather than publication A submitted paper  
was only reviewed with the explicit understanding that if accepted at least one of the authors would attend and present the  
paper at the conference It is our lief that attending conferences is an important part of one's academic career through which  
academic networks can be built that may bene t one's academic life in the long run We also made every e ort to support  
graduate students in attending CIS 2004 In addition to set reduced registration fees for full time graduate students we  
awarded up to three prizes for to the Best Student Papers at CIS 2004 Students whose papers were selected for awards were  
given cash prizes plus a waiver of registration fees      *InfoWorld* ,1993-11-15 InfoWorld is targeted to Senior IT
