that could be moved to the future and will require much more time Until 1991 none of the post communist nations except former East Germany which had a large degree of support from West Germany had succeeded in privatizing large numbers of enterprises even though more than two years had passed since the changes in government in these nations The privatization has been however seen as an extremely important part of reform package together with stabilization and liberalization especially in the Czech Republic from the very beginning The Czechs originally as a part of the Czechoslovak Federal Republic embarked on an unprecedented path that should have lead not only to stabilization and liberalization but also to very rapid mass privatization of its sector of large enterprises that have dominated its economy to an extreme extent

Investing with the Trend Gregory L. Morris, 2013-12-31 Investing with the Trend provides an abundance of evidence for adapting a rules based approach to investing by offering something most avoid and that is to answer the why one would do it this way It explains the need to try to participate in the good markets and avoid the bad markets with cash being considered an asset class The book is in three primary sections and tries to leave no stone unturned in offering almost 40 years of experience in the markets Part I The focus is on much of the misinformation in modern finance the inappropriate use of Gaussian statistics the faulty assumptions with Modern Portfolio Theory and a host of other examples The author attempts to explain each and offer justification for his often strong opinions Part II After a lead chapter on the merits of technical analysis the author offers detailed research into trend analysis showing how to identify if a market is trending or not and how to measure it Further

research involves the concept of Drawdown which the author adamantly states is a better measure of investor risk than the oft used and terribly wrong use of volatility as determined by standard deviation Part III This is where he puts it all together and shows the reader all of the steps and details on how to create a rules based trend following investment strategy A solid disciplined strategy consists of three parts a measure of what the market is actually doing a set of rules and guidelines to tell you how to invest based upon that measurement and the discipline to follow the strategy Environmental Administrative Decisions United States.
