### **Long Welcome Speech for Sports Day By Principal**

Good morning everyone, I am very happy to see everyone blooming in the spirit of the sports day. It is an absolute honor to introduce to you all the Chief guests/guests (mention their names) today, we feel privileged to host you today. I would like to thank you for accepting our invitation and gracing us with your presence. Your achievements in the field of sports are excellent and your contribution to raising the bar for future generations by bringing laurels to our country is truly noteworthy.

A very warm welcome to the parents and families who are here to support their children. It is difficult to navigate these past few weeks for children who are working hard and preparing for the main day. It is because of your affection and encouragement that we see our children in high spirits, even after such tiring days.

The annual sports day is a tradition that started ever since the school was established. My heart is overjoyed to see such enthusiastic participation by all our students who are carrying forward the torch of march pasts, and sports drills. Every year the level of anticipation only increases. It makes us more excited to see what's coming ahead.

The primary focus in many cases is academics, which certainly is an important aspect in building a student's career and life but many fail to recognize the importance of sports.

Extracurricular activities and sports teach students many important life lessons. It teaches discipline, focus, dedication, hard work, commitment, teamwork. And it is our responsibility as adults to value sportsmanship and award the courage of students to take action rather than focusing on winning or losing.

Sports instill plenty of values that help students to cruise through life with honesty and responsibility for themselves and others. It also allows students to be agile and fit that only increases the concentration in academics and the willingness to perform better in any field.

Sport is an amazing concept that improves the lives of people. Students especially need to take part in sports that they find fun because participating in sports will not only help them to improve their physical health but will also give

Improvements in Speech Synthesis E. Keller, G. Bailly, A. Monaghan, J. Terken, M. Huckvale, 2001-11-28 Naturalness in synthetic speech is one of the most intractable problems in information technology today Although speech synthesis systems have improved considerably over the last 20 years they rarely sound entirely like human speakers Why is this so and what can be done about it Prosodic processing must be rendered more varied and more appropriate to the speech situation Timing melodic control and the relationships between the various prosodic parameters need increased attention Signal processing systems must be developed and perfected that are capable of generating more than just one voice from a database A better understanding must be achieved of what distinguishes one voice from another and of how speech styles differ between simply reading aloud numbers and sentences and their use in interactive speech New evaluation methodologies should be developed to provide objective and subjective measurements of the intelligibility of the synthetic speech and the cognitive load imposed upon the listener by impoverished stimuli Adequate text markup systems must be proposed and tested with multiple languages in real world situations Further research is required to integrate speech synthesis systems into larger natural language processing systems Improvements in Speech Synthesis presents the latest research in the above areas Contributors include speech synthesis specialists from 16 countries with experience in the development of systems for 12 European languages This volume emerges from a four year European COST project focussed on The Naturalness of Synthetic Speech and will be a valuable text for everyone involved in speech synthesis

**Effective Call Center: Soft Skills**, **New Worlds of Work** Ulrich Jürgens, Martin Krzywdzinski, 2016-04-15 New industrial centres are emerging in the so called BRIC countries Brazil Russia India and China where large numbers of plants have been constructed in recent years creating many manufacturing jobs But what does

industrial work look like in these locations Up until now much of the interest in developing country industrialization has concentrated on the poor working conditions that characterize some export oriented sectors in emerging economies most notoriously in the garment industry In contrast the concern of this book is with the modern facilities of multinational or local manufacturers that reflect aspirations for a process of industrial upgrading that might foreshadow the future for these countries The book provides an analysis of work its context and the situation of employees in plants in the BRICs focussing on three main questions What differences and common features can be ascertained in a comparison both of countries and firms in terms of workplace HR management and production systems What evidence is there for either a high road or low road developmental path in the BRICs How are corporate standards implemented in these local contexts The book addresses an academic audience as well as managers and trade unionists For the former it offers a systematic comparison of the four countries and the companies under study For the latter it offers a vivid account of challenges the companies face in the BRIC countries as well as the solutions adopted by the companies

What role has football and sport in general played in Hungarian foreign policy Was there a continuity between the inter war period and communism Are foreign politics and sporting diplomacy synonyms This book tries to provide answers to these questions through a careful examination of documents of the Hungarian Foreign Ministry and Hungarian newspapers supplemented by documentation from several European countries Through Hungarian football the author traces a history of Hungary during the Age of Extremes with a special focus on the period during which sport played a particular role in Hungarian foreign policy from 1924 the date of the Paris Olympics the first time the country competed after World War I to 1960 date of the Olympics of Rome The result is a study from a particularly original perspective highlighting first and foremost the transnational dimension of Hungarian football      Nation-branding in Practice Kristin Anabel

Eggeling,2020-04-29 This book investigates the political implications of country promotion through practices of nation branding by drawing on contemporary examples from the sports urban development and higher education sector in Kazakhstan and Qatar Nation branding has emerged as a central practice of international politics where it is commonly understood as a vain superficial selling technique with little political salience Drawing on shared insights from practice theory and constructivist notions of nationalism identity and power this book challenges this reading and instead argues that nation branding is neither neutral nor primarily economically motivated but inherently politicised and tied to the legitimization of current political regimes The starting point for the analysis is a range of everyday practices and sites long ignored by international relations scholars In particular the book traces how the political leadership in Kazakhstan and Qatar have used

participation in the international sports circuit spectacular urban development and the construction of world class universities to first produce and then stabilize new ideas about their state Providing a new analytical perspective on nation branding this book will be of interest to students and scholars of Middle Eastern and Central Asian studies International Relations and Cultural and Political Geography *Bioethics Across the Globe* Akira Akabayashi, 2020-05-19 This open access book addresses a variety of issues relating to bioethics in order to initiate cross cultural dialogue Beginning with the history it introduces various views on bioethics based on specific experiences from Japan It describes how Japan has been confronted with Western bioethics and the ethical issues new to this modern age and how it has found its foothold as it decides where it stands on these issues In the last chapter the author proposes discarding the overarching term Global Bioethics in favor of the new term Bioethics Across the Globe BAG which carries a more universal connotation This book serves as an excellent tool to help readers understand a different culture and to initiate deep and genuine global dialogue that incorporates local and global thinking on bioethics Bioethics Across the Globe is a valuable resource for researchers in the field of bioethics medical ethics interested in adopting cross cultural approaches as well as graduate and undergraduate students of healthcare and philosophy H.S.C Sample Papers Science Stream for 2022 Exam (Maharashtra Board) : New Pattern Questions - Hindi, Eng, Marathi, Maths & Stats, Physics, Chem, Bio Oswal - Gurukul, 2021-08-25 H S C SAMPLE PAPERS Maharashtra Board for 2022 Exam Science Stream Handbook of 8 Subjects Activity Sheet Question Papers on New Pattern
