Introduction

Indira Gandhi was born on 19 November 1917. Her father was Jawaharlal Nehru, a nationalist leader and the first Prime Minister of independent India. The Nehru family was a prominent family politically, and her grandfather, Motilal Nehru, was a nationalist leader who led India's quest for independence from Britain. Indira Gandhi studied at various schools in India before acquiring higher education in Britain, specifically in the Somerville College in Oxford.

While in England, she met her future husband Feroze Gandhi, from whom she got the famous surname. However, Indira is not related to the famous Indian independence leader Mahatma Gandhi in any way. She returned to India in the year 1941 and married Feroze the following year. Indira Gandhi's political exposure began with her return to India, which coincided with her father's stint as the first Prime Minister of India (Steinberg 756). She subsequently served her father as his personal assistant.

Inevitably, as she rubbed shoulders with many politicians and leaders whom her father interacted with on a daily basis, her exposure to politics increased. When her father passed away in 1964, she secured a seat in India's parliament. Her status and influence further grew when she was appointed minister for Broadcasting.

Following the death of then Prime Minister Lal Bahadur Shastri, Indira Gandhi, and some of her political mentors, began a series of calculated maneuvers that would eventually see her assume the premiership seat in 1966. From her early days in politics, Indira Gandhi had shown a unique ability to win elections and outmaneuver opponents.

Therefore, with the help of the then president K. Kamaraj, she was eventually able to assume India's ultimate political seat as the country's Prime Minister. She served three consecutive terms from 1966 to 1977, winning three elections and after her party's defeat in 1977, she was able to rally her party members and followers, which saw her Congress Party win the following elections in 1980.

Understanding Fascism: Writings on Class, Caste and the State K. Balagopal, The articles are responses at a point in time but why the book is important is because they are relevant even now They are about the arduous task of building democracy and charting the

contours of the justice system in its everyday guise as well as when it sets out to make and implement policies

Authoritarianism Balagopal points out lies immanent in the dominance of the national project by the hegemonic classes and castes The elites have deliberately sought to work this as well as regional contradictions to their advantage They do this by building a repository of social contempt and negativity against shifting targets religious minorities workers civil rights activists political dissenters dalits and adivasis movements and protesting women Balagopal writes about how in India the alchemy between caste class and the State creates a uniquely Indian alloy of fascism Reading them gives the impression that he was standing on top of a tall tower with a powerful pair of binoculars which enabled him to see what nobody else could In truth there was no tower and no binoculars just an extremely fine courageous and honest mind looking around at what others turn away from Arundhati Roy
