**Abstract**—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were randomly assigned to either a control group (CON) or an exercise group (EX). The EX group performed a 12-week training program consisting of three sessions per week of aerobic exercise. The HR and EE were measured at baseline and at the end of the 12-week training program. The EX group showed a significant decrease in HR and a significant increase in EE compared to the CON group. The results of this study suggest that a 12-week training program can effectively reduce HR and increase EE in sedentary, middle-aged women.

23. When configuring a multi-mount AFS, set `mountmnt` to your Netatun path: `mountmnt=/usr/bin/netatun`
24. If you're using the `afs` multi-mount method, add `afs` to the `mountmnt` path. For example, if you're using the `afs` multi-mount method, set `mountmnt=/usr/bin/netatun-afs`. This is required after the purchase of this type of multi-mount AFS, as pointing out the group appears in `group 1`.
25. Do not include the `FS` of `mountmnt`, as `FS` is deprecated.
26. When configuring the multi-mount AFS, set `afs` to the `afs` path in the `netatun` file. For example, `afs=/usr/bin/netatun-afs`.

When you install your T-Value One Connection, improper installation of all four screws (50 combinations for One Connection) will void the warranty. Please, before installing, refer to the correct installation instructions. Failure to maintain proper ventilation may result in a variety of problems with the product.

- When a producer's price for the output rises or falls, it must adjust its output level accordingly. A rise in the price of the output will cause a producer to produce more, and a fall in the price of the output will cause a producer to produce less.

- 20 Do not test the power switch on the immersion pump, or otherwise test the pump in the water and especially if the water contains any materials that interfere with the power specifications outlined in the test and maintenance procedures listed on the product for voltage and temperature information
- 21 Do not touch the power switch or the power cord while they are energized for the reason that on a grounded system, a grounded object energized from the plug can cause electrical shocks or electrical fires if it falls into the water or on the premises as they exit the building
- 22 Do not use the pump in the water without only the power switch and power cord. This may void the electric shock
- 23 Do not touch the switch, or use the switch in the water if the equipment is damaged. Contact your distributor for more power specifications
- 24 Do not touch the plug or the power cord while it is energized or plug it into anything other than the power cord that is listed and always follow the power cord's plug. The energizing of the plug when the power cord is plugged in the power cord outlet
- 25 Do not plug the cord into any other receptacle, or use the cord if there are any cracks, cuts, frays, or other damage. Inspecting the cord for damage is not enough. Inspect the cord for damage after it is plugged into the power cord outlet in the building
- 26 Do not use the pump in the water without always having the power cord plugged into the power cord outlet. Always follow the power cord's plug and the receptacle in the building as it is listed for the plug and the receptacle in the building as it is listed for the plug and the receptacle in the building
- 27 Do not use the pump in the water without always having the power cord plugged into the power cord outlet. Always follow the power cord's plug and the receptacle in the building as it is listed for the plug and the receptacle in the building
- 28 Do not use the pump in the water without always having the power cord plugged into the power cord outlet. Always follow the power cord's plug and the receptacle in the building as it is listed for the plug and the receptacle in the building
- 29 Do not use the pump in the water without always having the power cord plugged into the power cord outlet. Always follow the power cord's plug and the receptacle in the building as it is listed for the plug and the receptacle in the building
- 30 Do not use the pump in the water without always having the power cord plugged into the power cord outlet. Always follow the power cord's plug and the receptacle in the building as it is listed for the plug and the receptacle in the building
