### **White Sororities and the Cultural Work of Belonging**

Charlotte Hogg, 2023-12-19 Charlotte Hogg takes a close look through the example of White university sororities at how we create and cling to subcultures through the notion of belonging and how spoken and unspoken rhetorics contribute to this notion Renewed calls to end Greek letter organizations for racism and sexism including increased scrutiny on White women s social justice failings have intensified But as Hogg shows rhetorics of belonging have always occurred amid and even in response to anti GLO sentiment She shows how rhetorical efforts by members for members foster belonging for insiders while also seeking to appease those on the outside In her analysis Hogg positions the study of rhetoric beyond traditional methods of persuasion to show how we communicate and participate in communities as citizens in subtle ways beyond speaking and writing Through engaging narrative drawing on her experiences as a member of a White sorority archival research and interviews with collegians and alumni she shows how efforts toward belonging can influence particular beliefs about womanhood in complex ways This thought provoking volume will interest scholars and students from a range of disciplines including rhetoric and communication studies gender studies feminism sociology cultural anthropology and history

Entrepreneurship and Self-Help among Black Americans John Sibley Butler, 2012-02-01 Since its publication in 1991 Entrepreneurship and Self Help among Black Americans has become a classic work influencing the study of entrepreneurship and more importantly revitalizing a research tradition that places new ventures at the very center of success for black Americans This revised edition updates and enhances the work by bringing it into the twenty first century John Sibley Butler traces the development of black enterprises and other community organizations among black Americans from before the Civil War to the present He compares these efforts to other strong traditions of self help among groups such

as Japanese Americans Jewish Americans Greek Americans and exciting new research on the Amish and the Pakistani He also explores how higher education is already a valued tradition among black self help groups such that today their offspring are more likely to be third and fourth generation college graduates Butler effectively challenges the myth that nothing can be done to salvage America's underclass without a massive infusion of public dollars and offers a fresh perspective on those community based organizations and individuals who act to solve local social and economic problems
