## Sources Of World History Volume I:

Hegel: Lectures on the Philosophy of World History, Volume I, 2011-04-07 This edition makes available an entirely new version of Hegel's lectures on the development and scope of world history Volume I presents Hegel's surviving manuscripts of his introduction to the lectures and the full transcription of the first series of lectures 1822-23 These works treat the core of human history as the inexorable advance towards the establishment of a political state with just institutions a state that consists of individuals with a free and fully developed self-consciousness Hegel interweaves major themes of spirit and culture including social life political systems commerce art and architecture religion and philosophy with an historical account of peoples dates and events Following spirit's quest for self-realization the lectures presented here offer an imaginative voyage around the world from the paternalistic static realm of China to the cultural traditions of India the vast but flawed political organization of the Persian Empire to Egypt and then the Orient and the birth of freedom in the West to the Christian revelation of free political institutions emerging in the medieval and modern Germanic world Brown and Hodgson's new translation is an essential resource for the English reader and provides a fascinating account of the world as it was conceived by one of history's most influential philosophers The Editorial Introduction surveys the history of the texts and provides an analytic summary of them and editorial footnotes introduce readers to Hegel's many sources and allusions For the first time an edition is made available that permits critical scholarly study and translates to the needs of the general reader
