**Psychological Assessment in South Africa** Sumaya Laher, Kate Cockcroft, 2013-01-01 This book provides an overview of the research related to psychological assessment across South Africa. The thirty six chapters provide a combination of psychometric theory and practical assessment applications in order to combine the currently disparate research that has been conducted locally in this field. Existing South African texts on psychological assessment are predominantly academic textbooks that explain psychometric theory and provide brief descriptions of a few testing instruments. *Psychological Assessment in South Africa* provides in depth coverage of a range of areas within the broad field of psychological assessment including research conducted with various psychological instruments. The chapters critically interrogate the current Eurocentric and Western cultural hegemonic practices that dominate the field of psychological assessment. The book therefore has the potential to function both as an academic text for graduate students as well as a specialist resource for professionals including psychologists, psychometrists, remedial teachers and human resource practitioners. ***THE EARLY GRADE READING ASSESSMENT*** Amber K. Gove, Anna Wetterberg, 2011-09-28 The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15 minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006 and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and experience generated through the use of EGRA and to share this knowledge with practitioners, policymakers and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education. ***Resources in Education***, 2001-10 ***ICT Education*** Janet Liebenberg, Stefan Gruner, 2017-11-17 This book constitutes the refereed proceedings of the 46th Annual Conference of the Southern African Computer Lecturers Association on ICT Education (SACLA 2017) held in Magaliesburg, South Africa, in July 2017. The 22 revised full papers presented together with an extended abstract of a keynote paper were carefully reviewed and selected from 63 submissions. The papers are organized in topical sections on ICT students of a new generation, technology and gaming in nowadays education, educational cooperation with the ICT industry, computer programming education, ICT courses and curricula. ***Systemic School Improvement Interventions in South Africa*** Godwin Khosa, 2014-04-14 Looking at two smaller scale systemic school improvement projects implemented in selected district circuits in the North West and Eastern Cape by partnerships between government, JET Education Services and private sector organisations, this book captures and reflects on the experiences of the practitioners involved. The Systemic School Improvement Model developed by JET to address an identified range of interconnected challenges at district, school, classroom and household level is made up of seven components. In reflecting on what worked and what did not in the implementation of these different components, the different chapters set out some of the practical lessons learnt which could

be used to improve the design and implementation of similar education improvement projects Many of the lessons in this field that remain under recorded to date relate to the step by step processes followed the relationship dynamics encountered at different levels of the education system and the local realities confronting schools and districts in South Africa s rural areas Drawing on field data that is often not available to researchers the book endeavours to address this gap and record these lessons It is not intended to provide an academic review of the systemic school improvement projects It is presented rather to offer other development practitioners working to improve the quality of education in South African schools an understanding of some of the real practical and logistical challenges that arise and how these may be resolved to take further school improvement projects forward at a wider district provincial and national scale

**Reviews of National Policies for Education: South Africa 2008** OECD,2008-09-05 Gives a brief overview of regional issues and the history of education in South Africa and describes the development of education in the country over the past 15 years It presents an analysis of the education system identifying key directions for

**Learner-centered Science Education** ,2019-02-11 This book arises from the author s experience of the South African science curriculum development and teaching since 1994 exploring definitions of science and approaches to science education appropriate to a newly liberated developing country Each of the 50 chapters is borne out of Cliff Malcolm s close relationships with communities in SA where he obtained deep insights into their attitudes to science teaching and learning providing him with an empirical basis to challenge tertiary institutions to transform their curriculum offerings to embrace the culture and world views of African students The author makes a compelling case for the evolution of relevant science teaching and learning that provide capital for indigenous knowledges The book has relevance also to first world countries because the social and educational problems facing South Africa though starker here are present in all countries The book addresses among others the nature of scientific knowledge and knowledge production how scientific knowledge can be accessed and represented what counts as legitimate scientific knowledge in the South African context of colonization liberation inequity and African belief systems The book extends the debates on African Science and offers ways of talking and writing about science that reframe it acknowledging problematics and pluralism offering ways of bringing Western and African thought together Using a richly descriptive novelistic style the author sketches vivid portraits of his research sites participants and experiences His vignettes are embedded in deep theoretical insights lending gravity to the development discourse in science education providing a coherent language for the transformational agendas of science educators committed to the project of social justice through a relevant science

**The Wiley Handbook of Personality Assessment** Updesh Kumar,2016-02-23 The Wiley Handbook of Personality Assessment presents the state of the art in the field of personality assessment providing a perspective on emerging trends and placing these in the context of research advances in the associated fields Explores emerging trends and perspectives in personality assessment building on current knowledge and looking ahead to the future landscape of the field Discusses emerging technologies and how these
