Congress. House. Committee on Appropriations. Subcommittee on State, Foreign Operations, and Related Programs, 2013 *Crisis Management Beyond the Humanitarian-Development Nexus* Atsushi Hanatani, Oscar A. Gómez, Chigumi Kawaguchi, 2018-09-27 In addressing humanitarian crises the international community has long understood the need to extend beyond providing immediate relief and to engage with long term recovery activities and the prevention of similar crises in the future However this continuum from short term relief to rehabilitation and development has often proved difficult to achieve This book aims to shed light on the continuum of humanitarian crisis management particularly from the viewpoint of major bilateral donors and agencies Focusing on cases of armed conflicts and disasters the authors describe the evolution of approaches and lessons learnt in practice when moving from emergency relief to recovery and prevention of future crises Drawing on an extensive research project conducted by the Japan International Cooperation Agency Research Institute this book compares how a range of international organizations bilateral cooperation agencies NGOs and research institutes have approached the continuum in international humanitarian crisis management The book draws on six humanitarian crises case studies each resulting from armed conflict or natural disasters Timor Leste South Sudan the Syrian crisis Hurricane Mitch in Honduras the Indian Ocean earthquake and tsunami in Indonesia and Typhoon Yolanda The book concludes by proposing a common conceptual framework designed to appeal to different stakeholders involved in crisis management Following on from the World Humanitarian Summit where a new way of working on the humanitarian development nexus was highlighted as one of five major priority trends this book is a timely contribution to the debate which should interest researchers of humanitarian studies conflict and peace studies and disaster risk management Republic of

South Sudan International Monetary Fund. African Dept.,2014-12-17 This 2014 Article IV Consultation highlights that South Sudan s economic performance has been mixed in recent years Real GDP growth has displayed high volatility the result of changes in oil and agricultural production Inflation rose in an initial period of economic instability in 2011 12 but was contained in 2013 14 thanks to fiscal and monetary restraint and lower food prices Serious challenges remain including distortions in the foreign exchange market and in budget execution lower international oil prices and subdued oil production As a result financing the budget for FY2014 15 is challenging and will likely require policy decisions given the otherwise potentially adverse impact on economic stability and inflation

South Sudan International Monetary Fund. African Dept.,2017-03-23 South Sudan has suffered civil conflict political instability and external shocks in the past three years A steep decline in oil production and a sharp drop in oil prices have caused large shortfalls in foreign exchange receipts and government revenue Continued high government spending led to massive fiscal deficits that were either monetized or financed through accumulation of arrears The country is in a deep economic crisis with annual inflation peaking at 550 percent in September 2016 and a precipitous currency depreciation Gross international reserves have dropped to about one week of import cover A relapse of violence in July 2016 following the formation of the Transitional Government of National Unity three months earlier compounded the already existing humanitarian crisis and derailed the peace process The hope is that the country charts a new course toward a broad based and inclusive political process and economic development

South Sudan Operational Plan Report Fy 2013 United States United States Department of State,2014-11-12 After experiencing decades of civil war and following the terms of the 2005 Comprehensive Peace Agreement CPA the Republic of South Sudan RSS became an independent nation on July 9 2011 South Sudan s development challenges remain daunting The country has some of the lowest human development statistics in the world for literacy educational access maternal and neonatal mortality child survival nutrition family planning use and access to safe water and sanitation The majority of the population of South Sudan still lacks access to the essential services of education health nutrition safe water and sanitation because of fragile or ineffective service delivery systems a weak enabling environment and institutions lacking adequate governance capacity management financial and operational systems The pre independence Sudan National Census of 2008 estimated the South Sudanese population at 8 26 million The current estimate may be as high as 12 million due to growth rates and returnees South Sudan has a generalized HIV epidemic 3 0% Southern Sudan Antenatal Care Clinics Sentinel Surveillance Report 2009 with geographic areas of hyperendemicity with HIV prevalence rates as high as 15 7% Existing data suggest that military personnel are similar to the general population in terms of HIV risk in South Sudan States report HIV sero prevalence rates ranging from 0% Northern Bahr El Ghazal to 7 2% Western Equatoria In 2012 an estimated 250 000 South Sudanese were infected with HIV with 62 000 in need of antiretroviral therapy ART Of these only 5 000 received ART by the end of December 2013 primarily through support of the Global Fund to Fight AIDS Tuberculosis and Malaria GFATM

whose emergency continuation fund allows for provision of ART for those placed on ART prior to November 30 2011 There are currently 22 ART sites in the country HIV transmission in South Sudan is assumed to be driven by heterosexual practices including multiple and concurrent sexual partnerships as well as transactional and intergenerational sex In the military population alcohol abuse is a key risk factor in addition to multiple concurrent partnerships Presumed at risk populations include HIV discordant couples commercial sex workers and their clients and partners long distance truckers refugees and members of the uniformed services More than two million refugees have returned from neighboring countries where HIV infection rates are high High rates of extreme poverty unequal gender relations polygyny and the return of several million refugees and internally displaced persons combined with a virtually non existent health system interact in a complex dynamic that makes South Sudan highly vulnerable to the HIV AIDS epidemic National Defense Authorization Act for Fiscal Year 2013, May 11, 2012, 112-2 House Report 112-479 ,2012 Paths between Peace and Public Service Jürgen René Blum, Marcos Ferreiro-Rodríguez, Vivek Srivastava, 2018-12-28 Building a capable public service is fundamental to postconflict state building Yet in postconflict settings short term pressures often conflict with this longer term objective To ensure peace and stabilize fragile coalitions the imperative for political elites to hand out public jobs and better pay to constituents dominates merit Donor financed projects that rely on technical assistants and parallel structures rather than on government systems are often the primary vehicle for meeting pressing service delivery needs What then is a workable approach to rebuilding public services postconflict Paths between Peace and Public Service seeks to answer this question by comparing public service reform trajectories in five countries Afghanistan Liberia Sierra Leone South Sudan and Timor Leste in the aftermath of conflict The study seeks to explain these countries different trajectories through process tracing and structured focused methods of comparative analysis To reconstruct reform trajectories the report draws on more than 200 interviews conducted with government officials and other stakeholders as well as administrative data The study analyzes how reform trajectories are influenced by elite bargains and highlights their path dependency shaped by preconflict legacies and the specifics of the conflict period As the first systematic study on postconflict public service reforms it identifies lessons for the future engagement of development partners in building public services Rebuilding the bureaucracy is possibly the most underappreciated policy and research question in fragile states today This is one of the most politically astute and thoughtful books I ve read on postconflict policy making of any kind Christopher Blattman Ramalee E Pearson Professor of Global Conflict Studies Pearson Institute for the Study and Resolution of Global Conflicts Harris Public Policy University of Chicago Rebuilding states after conflict is the greatest challenge in development today And yet we know precious little about the actual experience of countries that have tried to rebuild their civil service and restore public services This is a monumental study based on extensive empirical data and field based research across multiple cases that actually opens up the black box of state building in conflict affected countries It should be required reading for anyone who takes on this extraordinary

challenge Joel S Hellman Dean Edmund A Walsh School of Foreign Service Georgetown University There isn't a more pressing problem in international development than formulating practical strategies for building institutions in fragile states This book is a remarkable distillation of the frontline experiences of the World Bank in tackling this task Finally we have the basis for an empirically grounded assessment of what works and why Unputdownable James Robinson Reverend Dr Richard L Pearson Professor of Global Conflict and University Professor Institute Director Pearson Institute for the Study and Resolution of Global Conflicts Harris Public Policy University of Chicago

Aid and Authoritarianism in Africa Tobias Hagmann, Professor Filip Reyntjens, 2016-03-15 In 2013 almost half of Africa's top aid recipients were ruled by authoritarian regimes While the West may claim to promote democracy and human rights in practice major bilateral and international donors such as USAID DFID the World Bank and the European Commission have seen their aid policies become ever more entangled with the survival of their authoritarian protégés Local citizens thus find themselves at the receiving end of a compromise between aid agencies and government elites in which development policies are shaped in the interests of maintaining the status quo Aid and Authoritarianism in Africa sheds light on the political intricacies and moral dilemmas raised by the relationship between foreign aid and autocratic rule in Africa Through contributions by leading experts exploring the revival of authoritarian development politics in Ethiopia Uganda Rwanda Cameroon Mozambique and Angola the book exposes shifting donor interests and rhetoric as well as the impact of foreign aid on military assistance rural development electoral processes and domestic politics In the process it raises an urgent and too often neglected question to what extent are foreign aid programmes actually perpetuating authoritarian rule

The Governance Gap Penelope Simons, Audrey Macklin, 2014-07-11 This book explores the persistence of the governance gap with respect to the human rights impacting conduct of transnational extractive corporations operating in zones of weak governance The authors launch their account with a fascinating case study of Talisman Energy's experience in Sudan

informed by their own experience as members of the 1999 Canadian Assessment Mission to Sudan Harker Mission Drawing on new governance reflexive law and responsive law theories the authors assess legal and other non binding governance mechanisms that have emerged since that time including the UN Guiding Principles on Business and Human Rights They conclude that such mechanisms are incapable of systematically preventing human rights violating behaviour by transnational corporations or of assuring accountability of these actors or recompense for victims of such violations The authors contend that home state regulation while not a silver bullet has a crucial role to play in regulating such conduct They pick up where UN Special Representative John Ruggie s Guiding Principles on Business and Human Rights left off and propose an innovative robust and adaptable template for strengthening the regulatory framework of home states Their model draws insights from the theoretical literature leverages existing public private transnational national soft and hard regulatory tools and harnesses the specific strengths of state based governance This book will be of interest to academics policy makers students civil society and business leaders JICA Annual Report Japan International Cooperation Agency,Kokusai Kyōryoku Jigyōdan,2014 **Federal Register** ,2013-03 **Journal of the Senate of the United States of America** United States.
