Treadwell, 2014-02 According to myth the Greek goddesses Persephone, Demeter, and Aphrodite faced difficult decisions about love and children. Now three mortal women, Tess, Tiffany, and Tanya, face conflicts in the same vein. Each woman is on the threshold of great change if only they have the strength to go it alone. Tess balances her time among her career, her children, and her husband, but she feels detached from her marriage. It would be easy to leave for her sake, but what about the children? Tiffany, on the other hand, seems to have the perfect marriage; she enjoys being a housewife and mother. Life is wonderful until she realizes her husband has a secret. Tanya moved from Russia with her daughter, hoping to start a new life in Seattle with Jim, but he is not what he seems. Tanya must make her choice to stay or go, but nothing waits for her in Russia. Three women face life-altering decisions when they meet at their neighborhood clubhouse. Will their new friendships be a help or a hindrance? **Routledge Handbook of Sustainability Indicators** Simon Bell, Stephen Morse, 2018-06-14

This handbook provides researchers and students with an overview of the field of sustainability indicators (SIs) as applied in the interdisciplinary field of sustainable development. The editors have sought to include views from the center ground of SI development but also divergent ideas which represent some of the diverse challenging and even edgy observations which are prominent in the wider field of SI thinking. The contributions in this handbook clearly set out the theoretical background and history of SIs, their origins, roots, and initial goals; expand on the disciplines and modalities employed to develop SIs of various kinds; assess the various ways in which SI data are gathered and the availability over space and time and quality issues that surround them; explore the multiplex world of SIs as expressed in agencies around the world via examples of SI practice and the lessons that have emerged from them; critically review the progress that SIs have made over the last 30 years; express the divergence of views which are held about the value of SIs, including differing theories on their efficacy, efficiency, and ethics; explore the frontier of contemporary SI thinking, reviewing ante post and systemic alternatives.
