Understanding L2 Proficiency Eun Hee Jeon, Yo In'nam, 2022-08-04 This edited volume is a collection of theoretical and empirical overviews of second language L2 proficiency based on four skills reading writing listening and speaking Each skill is reviewed in terms of how it has been conceptualized measured and studied over the years in relation to relevant sub constructs of the language skill under discussion This is followed by meta analyses of correlation coefficients that examine the relationship between the L2 skill in question and its component variables Unlike most meta analyses that have a limited range of variables under investigation our meta analyses are much larger in scope to better clarify such relationships By combining theoretical and empirical approaches the book is helpful in deepening the understanding of how subcomponents or various variables are related to a particular L2 skill
