**Civil Rights in Black and Brown** Max Krochmal, Todd Moye, 2021-11-09 2022 Best Book Award Oral History Association Hundreds of stories of activists at the front lines of the intersecting African American and Mexican American liberation struggle Not one but two civil rights movements flourished in mid twentieth century Texas and they did so in intimate conversation with one another Far from the gaze of the national media African American and Mexican American activists combated the twin caste systems of Jim Crow and Juan Crow These insurgents worked chiefly within their own racial groups yet they also looked to each other for guidance and at times came together in solidarity The movements sought more than integration and access they demanded power and justice *Civil Rights in Black and Brown* draws on more than 500 oral history interviews newly collected across Texas from the Panhandle to the Piney Woods and everywhere in between The testimonies speak in detail to the structure of racism in small towns and huge metropolises both the everyday grind of segregation and the haunting acts of racial violence that upheld Texas s state sanctioned systems of white supremacy Through their memories of resistance and revolution the activists reveal previously undocumented struggles for equity as well as the links Black and Chicanx organizers forged in their efforts to achieve self determination

Equity and Access to High Skills through Higher Vocational Education Elizabeth Knight, Ann-Marie Bathmaker, Gavin Moodie, Kevin Orr, Susan Webb, Leesa Wheelahan, 2022-03-08 This book explores new and distinctive forms of higher vocational education across the globe and asks how the sector is changing in response to the demands of the 21st century These new forms of education respond to two key policy concerns an emphasis on high skills as a means to achieve economic competitiveness and the promise of open access for adults hitherto excluded from higher education Examining a range of geographic contexts the editors and contributors aim to address these contexts and highlight various similarities and differences in developments They locate their analyses within the various political and socio economic contexts which can make particular reforms possible and achievable in one context and almost unthinkable in another Ultimately the book promotes a critical understanding of evolving provisions of higher vocational education refusing assumptions that policy borrowing from apparently successful countries offers a straightforward model for others to adopt
