Diving with Sharks and Dive Atlas of the World      *Commercial Diver Training Manual, 6th Edition* Hal Lomax, 2016-08-01  
Updates in the 6th Edition Comprehensive rewrite can be used as stand alone reference Extensive index Easy to read  
formatting Color photos tables figures added Colorful book cover ABOUT THE BOOK The 6th Edition of the Commercial  
Diver Training Manual represents an almost total rewrite Where previous editions were designed to be utilized in conjunction  
either with the NOAA Diving Manual or the U S Navy Diving Manual the 6th Edition has been written as a stand alone work  
that covers history physics physiology diving medicine and first aid in addition to those chapters devoted to diving technique  
diving equipment and working underwater This manual is presented with the understanding that fully qualified instructors  
experienced in underwater work will provide any further explanation required by the reader At the same time the intent was  
to provide a manual to enhance both the theoretical and the practical training of the diver with a view to providing graduates  
that are more knowledgeable and well informed in their chosen trade performing their assigned tasks in a safe and  
productive manner To that end this manual strives to present the following Diving physics in a clear concise manner The  
latest theory and procedure in physiology and diving medicine The latest in practice and procedure both inland and offshore  
The most commonly used diving and support equipment accepted for use in today s industry While it is understood it would  
require several volumes to address every conceivable task performed on every type of underwater project employing  
commercial divers this manual endeavors to cover the most commonly performed tasks and the most common underwater  
operations By presenting these more common projects and tasks in detail it is hoped the reader will be better informed and  
better prepared for a career underwater In addition by further illustrating both technique and safety concerns with case  
studies and personal accounts from the author s career the manual shows the reader these are more than just words being  
presented suggestions help the reader become more proficient and safety guidelines keep the reader from injury or death
