Bacteriological World and Modern Medicine John Harvey Kellogg,Paul Paquin,1892 *Our Church and Our Children* Sophie Koulomzin,2004 This book is a re release of a classic by a distinguished Orthodox Christian religious educator and a foundational read for Christian parents and educators Koulomzin who taught Religious Education at St Vladimir s Orthodox Theological Seminary from 1954 to 1973 writes as a laywoman teacher mother and grandmother about the task of Christian education The work is a remarkable compendium of her wisdom The contents of the book comprise a deep understanding of children a wise appropriation of educational and developmental theory a lived knowledge of the Orthodox faith tradition and a keen sense of Orthodox church life in America The book is peppered with engaging anecdotes from her half century of experience working with children in the Church For Koulomzin recognizing that children are full members of the Church was of utmost importance and her life s vocation was encouraging others to see this Among the key topics addressed in *Our Church and Our Children* are the task of Christian education developmental stages of children Christian education in the family the challenges and opportunities of the church school and a vision and goals for the Christian teacher It makes an excellent book for either group or personal study Included in the re release are a foreword which gives a glimpse into her incredible personal life a bibliography and a chapter by chapter study guide **Biology** Christian Liberty Press,Robert Glotzhaber,2005-05-11 Teacher s Guide to accompany *Biology A Search for Order in Complexity* This teacher s guide will equip instructors to lead their students through the various experiments that are featured in the student laboratory manual **Make an Ethical Difference** Mark Pastin,2013-11-04 We are plagued today by a decline in ethical behavior Scandals come so thick and fast that any attempt to list them is out of date in weeks if not days But ethics isn t just a matter of headlines it s a part of everyone s life We re called on to make ethical decisions large and small all the time This can be particularly tricky in the workplace where our decisions can affect not just ourselves but coworkers clients customers and even the entire company Existing ethics books are of limited use They generally feature one author s opinions on very specific situations which may well have nothing to do with the problems we re facing And anyway we don t need expert advice Mark Pastin insists every one of us is qualified to resolve even the thorniest dilemmas ourselves and in this profoundly practical book he gives us the tools to do just that Pastin argues that we all have an innate ethical he calls it the ethics eye The problem is we re not aware we have it or how to develop it Here he provides practical tools we can

use to open up our ethics eye so that we can consistently see what is right and do it Make an Ethical Difference shows how to apply these tools using actual ethical dilemmas drawn from Pastin s decades of experience as an advisor to governments corporations and NGOs The point is not to try to wedge your situation into one of the examples it s to show how a tool that can be applied to any situation is used in one particular instance And once you ve reached a decision Pastin offers strategies for building consensus with those who might disagree with you People often feel hopeless and skeptical that there is anything they as individuals can do to raise society s ethical level or resolve long standing impasses By using the unique tools in this book we will gain confidence in our innate ethical sense and take actions that will elevate the ethical level of the groups and organizations we belong to and society as a whole
