Kadriye Ercikan and Peter Seixas have assembled an international array of experts who have collectively moved the fields of history education and assessment forward. Their various approaches negotiate the sometimes conflicting demands of theoretical sophistication, empirically demonstrated validity and practical efficiency. Key issues include articulating the cognitive goals of history education, the relationship between content and procedural knowledge, the impact of students' language literacy on history assessments and methods of validation in both large scale and classroom assessments. *New Directions in Assessing Historical Thinking* is a critical research oriented resource that will advance the conceptualization, design and validation of the next generation of history assessments.

The Drama Teacher's Survival Guide Matthew Nichols, 2021-01-14. This is a terrific and instructive book and an essential reminder of how inspiring and empowering a good drama teacher can be. I hope it is read widely and that new generations of pupils and teachers benefit from its wisdom and its verve. Nick Hytner. Drama teaching is at a critical juncture. With new qualifications in the market, changes in government approach to the arts in education and hundreds of thousands of students wanting to be part of the country's hugely successful performing arts industry, the pressures on drama teachers are enormous. Many don't have a specialist background in drama and theatre and end up taking on the role of drama teacher. Others feel disconnected from current theatre practice because of the time demands of teaching. Plenty of drama teachers feel they could be serving their students better if only they had the resources and the support. For all of those teachers, this book will come as welcome relief. *The Drama Teacher's Survival Guide* provides support, inspirational ideas and rock solid guidance for secondary drama teachers. It outlines the fundamental principles of a creative drama curriculum and looks at how teachers can facilitate this and deliver inspiring lessons to fulfill the potential of their learners. It addresses head on the common and numerous challenges that drama teachers face from having to design their own creative curriculum to understanding how students learn. The author's own advice and expertise is supplemented by case studies, thereby collating and offering up the best advice and experience available. Written by Matthew Nichols, drama teacher for 12 years, this book offers a range of strategies, case studies and methods that really work.

Getting the Right Teachers into the Right Schools Vimala Ramachandran, Tara Béteille, Toby Linden, Sangeeta Dey, Sangeeta Goyal, Prerna Goel Chatterjee, 2017-12-04. India's landmark Right of Children to Free and Compulsory Education Act 2009 guarantees education to all children aged 6-14 years. The Act mandates specific student-teacher ratios and emphasizes teacher quality. Writing this into legislation took seven years, but the seven years since has proven that ensuring effective teachers are recruited and placed in all schools in a time bound manner is considerably more challenging. This report takes a detailed look at the complexity of the teacher management landscape in elementary and secondary schools in nine Indian states. On a daily basis, the administrative machinery of these states has to manage between 19,000 to nearly a million teachers in different types of schools and employment contracts and cope with recruiting thousands more and distributing them equitably across schools. This report examines the following issues: official

requirements for becoming a schoolteacher in India policies and processes for teacher recruitment deployment and transfers salaries and benefits of teachers professional growth of teachers and grievance redressal mechanisms for teachers For the first time in India this report compares and contrasts stated policy with actual practice in teacher management in the country using a combination of primary and secondary data In so doing the report reveals the hidden challenges and the nature of problems faced by administrators in attempting to build an effective teacher workforce which serves the needs of all of India's 200 million school children The report examines states with varying characteristics thus generating knowledge and evidence likely to be of interest to policy makers and practitioners in a wide range of contexts **English Class 12 Bihar**

International Handbook of Research in Statistics Education Dani Ben-Zvi, Katie Makar, Joan Garfield, 2017-12-08. This handbook connects the practice of statistics to the teaching and learning of the subject with contributions from experts in several disciplines. Chapters present current challenges and methods of statistics education in the changing world for statistics and mathematics educators. Issues addressed include current and future challenges in professional development of teachers, use of technology tools, design of learning environments and appropriate student assessments. This handbook presents challenging and inspiring international research perspectives on the history and nature, current issues and future directions of statistics education and statistics education research. *World Yearbook of Education 2020* Julie Allan, Valerie Harwood, Clara Rübner Jørgensen, 2019-09-30. A timely contribution to the debate on educational governance and equality, the *World Yearbook of Education 2020* documents the significant changes that have occurred in the last 20 years, reflecting a widespread shift from government to governance. Considering school context as well as specific school responses around the emergence of particular forms of governance, this book presents and contextualises a clear historical account of governance and accountability within schooling. Organised into three sections covering Changing contexts of school governance, stakeholders and responsabilisation, and radical governance, carefully chosen contributors provide global insights from around the world. They consider educational outcomes and closing the inequality gap and they document radical forms of governance at local level which have sought to create more equitable governance, intelligent accountability and greater involvement of key stakeholders such as students. Providing a series of provocations and reminders of the possibilities that remain open to us, the *World Yearbook of Education 2020* will be of interest to academics, professionals and policymakers in education and school governance and any scholars who engage in historical studies of education and debates about educational governance and equality. Building Teacher Quality in India Alexander W. Wiseman, Preeti Kumar, 2021-08-04. India has one of the largest student populations in the world; the quality of teaching is blamed for the poor performance by Indian students on internationally comparative assessments. By analyzing various measures of teacher quality, this book provides a framework for policymakers to further improve teacher quality in India.
