Does Nonfiction Equate Truth? Vivian Yenika-Agbaw, Laura Anne Hudock, Ruth McKoy Lowery, 2018-03-15 Educators who teach children s literature at the college level as part of the pre service experience seldom allocate enough space in the curriculum for nonfiction literature This book recognizes the viability of nonfiction as a literary genre that demands critical analysis celebrates storytelling in its varied forms and invites teacher educators and pre service teachers our primary audience to nurture a spirit of inquiry and skepticism in the classroom It is an excellent resource for teacher educators looking for a variety of nonfiction texts to include in their literacy curriculum at both the undergraduate and graduate levels It also offers critical approaches through which students are encouraged to read these texts and ideas for critical inquiry with young learners

Second Handbook of Research on Mathematics Teaching and Learning Frank K. Lester, 2007-02-01 The audience remains much the same as for the 1992 Handbook namely mathematics education researchers and other scholars conducting work in mathematics education This group includes college and university faculty graduate students investigators in research and development centers and staff members at federal state and local agencies that conduct and use research within the discipline of mathematics The intent of the authors of this volume is to provide useful perspectives as well as pertinent information for conducting investigations that are informed by previous work The Handbook should also be a useful textbook for graduate research seminars In addition to the audience mentioned above the present Handbook contains chapters that should be relevant to four other groups teacher educators curriculum developers state and national policy makers and test developers and others involved with assessment Taken as a whole the chapters reflects the mathematics education research community s willingness to accept the challenge of helping the public understand what mathematics education research is all about and what the relevance of their research findings might be for those outside their immediate community
