*Global Leadership 2e* Joyce Osland, Allan Bird, Gary R. Oddou, Martha L. Maznevski, Michael Stevens, Günter K. Stahl, 2013-05-07 Global leadership has been frequently heralded by writers and executives as the key to sustained competitive advantage on the part of organizations. In addition, it is clear that the possession of leadership qualities and the display of leader behavior are requirements for individuals attempting to progress in their careers. It is important for aspiring managers to learn about the nature of effective global leadership and how they can develop their own competencies in this area. This textbook provides an important overview of this key emerging area within business and management. Offering a view into the nature of global leadership and the competencies necessary for aspiring managers to succeed, *Global Leadership* is essential reading for students of leadership, organizational theory, strategic management, human resource management, and for anyone working and managing in the global arena. Now in its second edition, it draws from recent research to both contemporize timeless topics and address today's relevant topics from corporate social responsibility to cultural competencies to current technology.

**Global Leadership** Mark E. Mendenhall, Joyce Osland, Allan Bird, Gary R. Oddou, Michael J. Stevens, Martha Maznevski, Günter K. Stahl, 2017-10-02 This text focuses on leading across cultural, economic, social, national, and political boundaries simultaneously. *Global Leadership* presents the field's latest studies and practices in a succinct and engaging style that helps scholars, managers, and students grasp the complexities of being a global leader. The authors begin by explaining the conceptual differences between general leadership and global leadership before examining the various dimensions of the global leadership field and how it will develop in the future. Users of previous editions will notice that the book has been restructured into five new parts to provide a better conceptual flow. Other new features include a new chapter on talent management and its relationship to global leadership processes; updates to the chapter on global leadership development, including material on international service learning approaches and other best practice examples; significant updates to the chapters on responsible global leadership and leading global teams, accounting for recent advances in both disciplines. This edition will prove a useful guide for graduate students of global leadership, international business, and general leadership classes, as well as scholars and managers seeking a thorough understanding of the field today. PowerPoint slides and a list of suggested cases are available to further assist instructors.

*Developing Global Business Leaders* Torsten Kühlmann, Mark Mendenhall, Günter K. Stahl, 2000-10-30 The widening gap between the requirements of multinational organizations and the strategic and managerial abilities of their leaders, many of whose core experiences predated the globalization of business, has created the need for this book. Editors Mark E. Mendenhall, Torsten M. Kühlmann, and Günter K. Stahl have organized the results of their research and that of their colleagues in the fields of leadership development, international management, and organizational psychology for the benefit of scholars and practitioners alike. After surveying current practices to bring the reader up to speed on global leadership development, as

pursued by the United States Germany Japan and with regard to women in leadership positions the book's focus shifts to a discussion of effective organizational processes In the third and final section contributors analyze the research that has been done on extending human resource management functional practices such as selection instrumentation the use of assessment centers multinational work groups cross cultural training programs and repatriation policies to global leadership development The editors define and analyze global leadership and in their review of the research clarify exactly what we know and don't know about developing global leadership skills and what it might be profitable to learn Practitioners will benefit from the contributors' well grounded insights into such issues as the key distinctions between global and domestic corporations which dimensions of competency transcend internal corporate leadership dimensions and how global leadership competencies should be developed
