The Transgender Phenomenon Richard Ekins, Dave King, 2006-10-23. Dave King and Richard Ekins are the leading world sociologists in this field. The book brings together a brilliant synthesis of history, case studies, ideas, and positions as they have emerged over the past thirty years and brings together a rich but always grounded account of this field, providing a state of the art of critical concepts and ideas to take this field further during the twenty-first century. Ken Plummer, University of Essex. An outstanding survey of the evolution of trans phenomena, splendidly written, highly informative, scholarly at its best yet easy to read even for those neither trans nor sociologist. Ekins and King, experts in the field, unroll the panoramas of sex, gender, and transgenering that have evolved during the last decades. For everyone wanting to understand the interaction of women and men and of those who cannot or will not identify with either of these two categories, reading this book is a must and a real pleasure. Friedmann Pfaefflin, University of ULM. This groundbreaking study sets out a framework for exploring transgender diversity for the new millennium. It sets forth an original and comprehensive research and provides a wealth of vivid illustrative material. Based on two decades of fieldwork, life history work, qualitative analysis, archival work, and contact with several thousand cross-dressers and sex changers around the world, the authors distinguish a number of contemporary transgenering stories to illustrate the binary male/female divide. The interrelations between sex, sexuality, and gender. The interrelations between the main sub-processes of transgenering. Wonderfully insightful. *The Transgender Phenomenon* develops an original and innovative conceptual framework for understanding the full range of the transgender experience.

beyond The term new media is a current buzzword among scholars and in the media industry referring to the ever multiplying digitized modes of film image and sound production and distribution Yet how new in fact are these new media and how does their rise affect the role of older media What new theories allow us to examine our culture of ubiquitous electronic screens and networked pleasures Is a completely new set of perspectives concepts and paradigms required or are older modes of discussion about the relationship between technology and art still adequate This book reconsiders the seminal work of German media theorists such as Adorno Benjamin and Kracauer in order to explore today s rapidly changing mediascape questioning the naive progressivism that informs much of today s discourse about media technologies The contributions by internationally recognized critics from a variety of academic fields encourage a view of the history of media as structured by difference complexity and multiplicity Together they offer intriguing ways of understanding the changed position of media in today s Germany and beyond Contributors Nora M Alter Michel Chaouli Diedrich Diederichsen Sabine Eckmann Margit Grieb Boris Groys Juliet Koss Richard Langston Lev Manovich Todd Presner Juliane Rebentisch Carsten Strathausen Lutz Koepnick is Professor of German Film and Media Studies and Erin McGlothlin is Associate Professor of German and Jewish Studies both at Washington University in St Louis **Sociological Abstracts** Leo P.
