Newell,2011-01-18 Because of the triumph of postmodern studies explication of classic poems by great dead white male English poets of preceding centuries has greatly declined in the last several decades even though many of the poems may

still be puzzling to interested readers young and old This book is addressed to both audiences in the hope that new explications of twelve classic poems or sections of these poems by Blake Wordsworth Coleridge Keats Shelley Tennyson Browning Arnold Hardy Yeats and Auden may help sustain interest in the poems Although the explication procedure is now unpopular in theory and held to be as subjective as interpretation the procedure is based on the experience that if a puzzling poem is reasoned with it can often be found to make sense on a basic level of understanding a sense perhaps complex ambiguous or ambivalent but not self contradictory In essence then this is a book of poetry explications having esthetic aims but written in an era of unesthetic political and cultural studies The term conservative in the title refers to explicatory rather than political conservatism as well as to critical and literary conservation i e to conserving the practice of explication whether upon literary works old or new and so also conserving esthetic interest in the old works themselves The book also attempts to show that new conservative explications are still possible and can be still useful even in the postmodern era and even on classic poems already much explicated and that therefore explication still has much to do in the work of literary studies in the postmodern era Using Young Adult Literature to Work through Wobble Moments in Teacher Education Dawan

Westerns Stephen Teo,2017-01-12 The western one of Hollywood s great film genres has surprisingly enjoyed a revival recently in Asia and in other parts of the world whilst at the same time declining in America Although the western is often seen as an example of American cultural dominance this book challenges this view It considers the western from an Asian perspective exploring why the rise of Asian westerns has come about and examining how its aesthetics styles and politics have evolved as a result It analyses specific Asian Westerns as well as Westerns made elsewhere including in Australia Europe and Hollywood to demonstrate how these employ Asian philosophical and mythical ideas and value systems The book

concludes that the western is a genre which is truly global and not one that is purely intrinsic to America **The Oxford Handbook of Music and Advertising** James Andrew Deaville, Siu-Lan Tan, Ron Rodman, 2021 This Handbook explains how music contributes to the advertising that the public encounters on a daily basis Chapters examine how the soundtracks of promotional messages originate how we might interpret the meanings behind the music and how commercial messages influence us through music *When Loss Gets Personal* Michelle M.
