Language Prescription Don Chapman, Jacob D. Rawlins, 2020-09-21 This book is a detailed examination of social connections to language evaluation with a specific focus on the values associated with both prescriptivism and descriptivism. The chapters written by authors from many different linguistic and national backgrounds use a variety of approaches and methods to discuss values in linguistic prescriptivism. In particular, the chapters break down the traditional binary approaches that characterize prescriptive discourse to create a view of the complex phenomena associated with prescriptivism and the values of those who practice it. Most importantly, this volume continues serious academic conversations about prescriptivism and lays the foundation for continued exploration. *Classical Education in Britain, 1500-1900* Martin Lowther Clarke, 1959

Rather than viewing poetry as a lofty, serious genre, Carrie Conners asks readers to consider poetry alongside another art form that has burgeoned in America since the 1950s: stand-up comedy. Both art forms use wit and laughter to rethink the world and the words used to describe it. Humor's disruptive nature makes it especially whetted for critique. Many comedians and humorous poets prove to be astute cultural critics. To that end, *Laugh Lines* focuses on poetry that wields humor to espouse sociopolitical critique. To show the range of recent American poetry that uses humor to articulate sociopolitical critique, Conners highlights the work of poets working in four distinct poetic genres: traditional received forms such as the sonnet, the epic, procedural poetry, and prose.

poetry Marilyn Hacker Harryette Mullen Ed Dorn and Russell Edson provide the main focus of the chapters but each chapter compares those poets to others writing humorous political verse in the same genre including Terrance Hayes and Anne Carson This comparison highlights the pervasiveness of this trend in recent American poetry and reveals the particular ways the poets use conventions of genre to generate and even amplify their humor Connors argues that the interplay between humor and genre creates special opportunities for political critique as poetic forms and styles can invoke the very social constructs that the poets deride
