There have been many recent advances in neurotology that have been published in general medicine otolaryngology and neurology journals. This comprehensive book will aggregate this information to provide a more complete picture of the state of the field and will include the authors' own clinical experience. There is a recent marked increase in interest in neurotology manifested by the clinical experiences and research publication work of otolaryngologists neurologists neuro ophthalmologists audiologists and physiotherapists. As a result this will be a completely state of the art work that includes all up to date neurophysiological data related to the vestibular system.
