P2 Economic Topics 2015:

Competition and Cooperation in Economics and Business Lindawati Gani, Beta Yulianita Gitaharie, Zaäfri Husodo, Ari Kuncoro, 2017-10-12 Asia and the Pacific have become the growth engine of the world economy with the contribution of two third of the global growth The book discusses current issues in economics business and accounting in which economic agents as individuals entrepreneurs and professionals as well as countries in the Asia and Pacific regions compete and collaborate with each other and with the rest of the globe Areas covered in the book include economic development and sustainability labor market competition Islamic economic and business marketing finance accounting standard compliances and taxation It will help shed light on what business and economic scholars in regions have done in terms of research and knowledge development as well as the new frontiers of research that have been explored and opening up This is an Open Access ebook and can be found on www.taylorfrancis.com **New Developments in Mining Engineering 2015** Genadiy Pivnyak, Volodymyr Bondarenko, Iryna Kovalevska, 2015-10-14 This annual series of books includes scientific papers on mining profiles This volume presents multiple aspects of mining technology implementation in several aspects extraction of coal iron manganese uranium and other ores Capturing and utilization of coalbed methane by various methods including alternative ones safety measures in mining ecological aspects etc Specific attention is paid to intensification of mineral resources extraction processes by way of modernizing opening methods development and mining methods depending on mining geological conditions Experimental results of stress strain state rock massif forecast by means of computational experiments using recursive methods are also discussed Any mining operations should finally result in adequate recovery of land surface and utilization of mining wastes using various environmentally friendly methods thus sufficient attention is paid to this scientific trend Non traditional methods of minerals mining are becoming more topical and of higher demand in the modern society Hence several papers chapters are devoted to underground coal gasification and its subsequent processes In addition extraction technologies of gas hydrate as a source of an abundant amount of natural gas are thoroughly examined in this book including implementation of gas hydrate technologies for mine methane utilizations with its following transportation in a solid state Furthermore attention is given to evaluation of economic efficiency of minerals mining by the proposed methods their ways of enrichment ecological aspects and the influence of mining production on the environment innovational logistic solutions at mining enterprises and also to perspectives of Ukraine s mining industry integration to the European standards **Economics as Rhetoric** Anne Isla, 2024-07-26 Bernard Maris was killed in Paris on January 7 2015 during the terrorist attack against the satirical magazine Charlie Hebdo He remains one of the most original intellectuals of contemporary France but despite being a uniquely original heterodox thinker his international reputation has been compromised by the fact that his writings are inaccessible to non French speakers This book remedies that By providing an overview of Bernard Maris life and intellectual trajectory as well as an English translation of an anthology of his most

relevant writings this volume provides the international audience for the first time ever the chance to know and understand the contribution of this major heterodox economist An outstanding and atypical figure in economic thought and a virulent critic of mainstream dominant economics he was also an all round actor and thinker of his time Through rigorous reasoning he questioned the notion of well being which he argued is too often conflated with having more Enslavement by work or the endless destructive accumulation of natural wealth is also inherent to the capitalist system Probably his most original contribution is his epistemological reflection on the very nature of economics and his appraisal of this discipline as a form of rhetoric This book will be of great interest to readers in heterodox economics economic methodology epistemology and French literature and culture more broadly

GrEEEn Solutions for Livable Cities Sonia Chand Sandhu,Ramola Naik Singru,John Bachmann,Vaideeswaran Sankaran,Pierre Arnoux,2016-02-01 This publication is a result of a 2 year innovative exploratory and reflective study of cities as unique urban spaces that support life work and play It responds to major issues that affect the quality of life of urban residents This publication offers practical ways on how urban managers urban practitioners businesspeople and citizens can engage to make cities more livable by building on their distinctive physical social cultural and economic characteristics With the adoption of the Sustainable Development Goals by the United Nations the book comes at the right time to offer integrated urban development solutions that can translate global development commitments into urban level actions to achieve livable cities

[Our Social World](#) Jeanne H. Ballantine,Keith A. Roberts,Kathleen Odell Korgen,2016-11-30 Inspire your students to develop their sociological imaginations in Our Social World Focused on deep learning rather than memorization this book encourages readers to analyze evaluate and apply information about the social world to see the connection between the world and personal events from a new perspective and to confront sociological issues on a day to day basis Organized around the Social World Model a conceptual framework used across chapters to see the complex links between various micro to macro levels of the social system students will develop the practice of using three levels of analysis and to view sociology as an integrated whole rather than a set of discrete subjects

[Index to International Statistics](#) ,2008

Handbook of Research on Resource Management and the Struggle for Water Sustainability in Africa Nojiyeza, Innocent Simphiwe, Mtapuri, Oliver, Bazaanah, Prosper, Netshiozwi, Edzisani

Ellen, 2022-01-28 Access to water and sanitation remains a critical challenge in various countries in Africa The crisis remains the crisis of governance rather than the physical and economic scarcity In most countries water is realized as a human right and subsidies are provided for the indigent households The tricky issue in rural areas remains an issue of access that is often linked to willingness and ability to pay for the installation and daily consumption The Handbook of Research on Resource Management and the Struggle for Water Sustainability in Africa presents practical examples of integrated water resources management IWRM implementation in African countries It further addresses the contemporary issues of alternative energy as part of climate change mitigation and utilizes case studies to examine how communities adapt to climate change Covering topics such as climate justice ecological governance and political ecology this major reference work is a dynamic resource for government officials sociologists climate scientists activists students and educators of higher education academicians and researchers in the fields of social sciences government developmental studies international relations and political science

Life-Cycle of Structures and Infrastructure Systems Fabio Biondini, Dan M. Frangopol, 2023-06-28 Life Cycle of Structures and Infrastructure Systems collects the lectures and papers presented at IALCCE 2023 The Eighth International Symposium on Life Cycle Civil Engineering held at Politecnico di Milano Milan Italy 2 6 July 2023 This Open Access Book contains the full papers of 514 contributions including the Fazlur R Khan Plenary Lecture nine Keynote Lectures and 504 technical papers from 45 countries The papers cover recent advances and cutting edge research in the field of life cycle civil engineering including emerging concepts and innovative applications related to life cycle design assessment inspection monitoring repair maintenance rehabilitation and management of structures and infrastructure systems under uncertainty Major topics covered include life cycle safety reliability risk resilience and sustainability life cycle damaging processes life cycle design and assessment life cycle inspection and monitoring life cycle maintenance and management life cycle performance of special structures life cycle cost of structures and infrastructure systems and life cycle oriented computational tools among others This Open Access Book provides an up to date overview of the field of life cycle civil engineering and significant contributions to the process of making more rational decisions to mitigate the life cycle risk and improve the life cycle reliability resilience and sustainability of structures and infrastructure systems exposed to multiple natural and human made hazards in a changing climate It will serve as a valuable reference to all concerned with life cycle of civil engineering systems including students researchers practitioners consultants contractors decision makers and representatives of managing bodies and public authorities from all branches of civil engineering

Microeconomics R. Glenn Hubbard, Anne M. Garnett, Philip

Lewis,Anthony Patrick O'Brien,2014-09-01 Microeconomics is the most engaging introductory economics resource available to students today Using real businesses examples to show how managers use economics to make real decisions every day the subject is made relevant and meaningful Each chapter of the text opens with a case study featuring a real business or real business situation refers to the study throughout the chapter and concludes with An Inside Look a news article format which illustrates how a key principle covered in the chapter relates to real business situations or was used by a real company to make a real business decision Solved problems in every chapter motivate learners to confidently connect with the theory to solve economic problems and analyse current economic events

Microfoundations of Evolutionary Economics Yoshinori Shiozawa,Masashi Morioka,Kazuhisa Taniguchi,2019-06-27 This book provides for the first time the microfoundations of evolutionary economics enabling the reader to grasp a new framework for economic analysis that is compatible with evolutionary processes Any independent approach to economics must include a value theory or price theory and price and quantity adjustment processes Evolutionary economics has rightly and successfully concentrated its efforts on explaining evolutionary processes in technology and institutions However it does not have its own value theory and is not capable of explaining the workings of everyday economics processes in which any evolutionary process would take place Our point of departure is the addition of myopic agents with severely limited rational and forecasting capacities in stark contrast to mainstream economics We show how myopic agents in a complex world can produce a stable price system and demonstrate how they can adjust their production to changing demand flows Agents behave without any knowledge of the overall process and they generate a stable economy as large as the global network of exchanges This is the true miracle of the market mechanism In contrast to mainstream general equilibrium theory this miracle can be explained without the need for an auctioneer or infinitely rational agents Thanks to this book evolutionary economics can now claim to be an independent approach to economics that can completely replace mainstream neoclassical economics

Climate Change Effects on Civil Infrastructure Mohammed M. Ettouney,2025-03-31 Climate change challenges are unlike any hazard that infrastructure and related shareholders have faced for millennia These challenges and the systems that are vulnerable to them as well as the resulting consequences social economic physical natural health costs etc are interrelated in countless ways and span regions countries oceans and continents The design analysis maintenance operations economics and life cycle of civil infrastructure are dependent upon climatic effects and this book addresses the intersections between climate change infrastructures and related decision paradigms such as risk resilience preparedness adaptation or mitigation from the viewpoint of climate change demands Presents an objective categorization of climate change demands as related to civil infrastructure and society Offers a comprehensive roadmap on how to plan for and address climate change effects on civil infrastructure Includes numerous objective and practical case studies throughout to highlight important subjects
